

**Detailed notes and Justification for State Health System Resource
Centre (SHSRC) Proposals for PIP 2022-24**

State has taken-up various initiatives under National Health Mission for improving the Health Status of the citizens. The initiatives includes upgradation of Primary Health Centres, Community Health Centres, Sub-District Hospitals, District Hospitals etc. to the Indian Public Health System standards, providing direct benefit skills to the patients such as Aarogya Aasara (Monthly pensions to the patients with chronic diseases, postoperative allowances), cashless insurance to the citizens against more than 3000 surgical & medical procedures, 10,000 village clinics more than 500 urban clinics etc. However to provide quality health care services, it is felt that a division supports the Government on Health Research, Health Planning. Accordingly it is proposed to establish the State Health System Resources Centres.

The following positions are proposed under the State Health System Resources Centres.
