Subject:- Drug Ware House at Verka Distt. Amritsar.

The Drug ware house at Verka was constructed during 2013 as per requirement of Medical authority. The area of this building works out to approximately 10000 Sft. in the existing building Provision for Heavy duty shelves was made. However, later on the capacity of the drug ware house was considered insufficient which could not hold the bulk quantities of drugs as per enhanced requirement. In view of enhanced requirement the building was further extended during 2016 with an additional area of 6000 Sft. However the provision for Shelves was not made in the extended portion of the building. The Medical authority has now desired to provide for heavy duty shelves and equipment in the extended portion of the building. It is intimated that an expenditure of Rs. 81.23 Lacs is likely to be incurred on this proposal.
