Dear All,

We are sharing with you the formats for Registers to be kept in Urban Primary Health Centres (UPHCs). The Registers/ Records for other programs like Disease Control Programs, including RNTCP, IDSP, VBD may be availed from the concerned divisions at the State level. Reporting as per requirements of these divisions are to be sent through proper channel.

The States/ UTs, may make minor deviations in the formats as per the local needs and requirements after taking approval of State Health Mission. Required number of registers may be printed as soon as possible and use of these registers may be initiated immediately at the Urban Primary Health Centres.

With Warm regards.

Your sincerely,

Dr. Basab Gupta
