To,

The Mission Directors, NRHM,  
(All States and Union Territories)

**Sub: Strengthening of reporting system of the ARSH programme**

Sir/Madam,

In order to strengthen the reporting system of the Adolescent Reproductive and Sexual Health (ARSH) programme, templates for registers and formats for capturing information on the services offered at various levels have been finalized by GoI and has been circulated to all States and Union Territories vide DO letter No M-12015/27/2010-MCH dated 22.11.2011.

In the ARSH-SABLA convergence workshop held in December'2011 in New Delhi, these formats were discussed in detail and the States/UTs were requested to ensure that these are used in Adolescent Friendly Health/ARSH clinics. States/UTs were also requested to ensure timely collection and reporting of data at the facility, district and state levels. However it is noted with concern that States & UTs are still not using these formats for data collection and reporting in Adolescent Health Clinics.

You are therefore requested to ensure that the registers and reports which have been circulated to States and UTs are made available in all Adolescent Health Clinics and there is timely collection and reporting of data. Copy of formats and registers are enclosed for your reference.

Yours faithfully,

(Dr. Suresh K. Mohammed)

Director (RCH-DC)

Enclosure: As above
