### PREFACE

Since the launch of NRHM, impressive achievements have started to become visible in terms of strengthening of health systems and health outcomes. The demand for services in public sector has gone up substantially as is evident from surge in OPD & IPD attendance and institutional deliveries including Caesarean Sections. Availability of drugs, diet and assured referral has increased manifold. The contribution made by various initiatives taken up under RCH/NRHM especially JSY and JSSK is enormous.

Despite impressive progress, improving the quality of services remains a key challenge. Shortage of skilled manpower, particularly, doctors and specialists is a major bottleneck. I strongly believe that task shifting is not an option but an imperative and there is major scope for entrusting nurses and midwives a wider range of responsibilities backed by appropriate skill building.

ANMs and GNMs are the pillars of the primary health care and their empowerment and expertise are critical to improving quality of health care. Though in-service training for improving the knowledge and skills of ANMs and GNMs has been a thrust area under RCH, quality of pre-service nursing education has not received due attention. Hence, this initiative in collaboration with the Indian Nursing Council to prepare an exhaustive roadmap for strengthening pre-service nursing education.

It is heartening to note that steps have separately been taken by the Indian Nursing Council to improve the duration and curriculum of ANM / GNM courses, lay emphasis on development of key competencies and introduce reforms with regard to evaluation and competency-based certification.

These operational guidelines developed by Maternal Health Division are a major step forward and are intended to give an unambiguous and clear direction to all stakeholders with regard to the new path being charted out with the aim to equip ANMs and GNMs with right skills. The guidelines are applicable to all States and a beginning has already been made in high focus states.

I sincerely hope that Principal Secretaries and Health Secretaries will personally peruse these guidelines and take pro-active steps to ensure their implementation. I am confident that they will, in addition, take a variety of other innovative measures to empower and encourage Nurses and Midwives who hold the key to improved RMNCH outcomes.

  
( Anuradha Gupta)

## **FOREWORD**

The biggest challenge for the provision of health care services and attaining the MDG is the acute shortage of health personnel and disproportionate skill mix of the existing staff. An analysis of the trends of critical health indicators like infant mortality rate (IMR) & maternal mortality ratio (MMR) and availability of health personnel show a positive correlation where better availability of skilled health personnel also have lower mortality indicators

The State have been recruiting medical officers, ANMs, nurses etc on contractual basis. Compulsory rural posting for multiskilling doctors and allied health professionals has also been attempted by many States for overcoming the problem of availability of health professionals in rural areas. However, adequate knowledge and skills of ANMs and Staff Nurses working in the public sector facilities is one of the major bottlenecks in delivering quality RMNCH services particularly at primary and secondary level health facilities.

The guidelines provide a comprehensive road-map, which will facilitate program managers, state nursing cells, faculty of the mid-wifery institutions and other stakeholders in strengthening the pre-service nursing and midwifery education in the country particularly in the high focus states.

I hope the relevant stakeholders will make use of this guideline in planning for technical strengthening of ANM and GNM training institutions which will help ultimately help in availability of adequate number of competent and confident nurse-mid-wives in the public health institutions all over the country.

## FOREWORD

With an increase in institutional delivery at the public health institutions under NRHM, there has been a supply side constraint in terms of shortage of the human resources for delivering quality services.

The capacity of the states to produce sufficient number of competent and confident nurses and ANMs providing quality midwifery services are crucial for the success of the various RMNCH programs being launched and implemented by the Govt. of India. So the role of ANMs and SNs has become a critical determinant for improving services to the vast rural population in the country.

This Operational Guideline prepared by MOHFW, in collaboration with Indian Nursing Council, and with support from various development partners, is a step in the right direction for strengthening the quality of pre-service education at the GNM Schools and ANM training centres in the 10 high focus states of Madhya Pradesh, Jharkhand, Bihar, Rajasthan, Uttar Pradesh, Uttarakhand, Chhattisgarh, Orissa, Assam and Jammu & Kashmir.

The various stakeholders including development partners can make use of this tool for implementing the road- map towards strengthening the pre-service education for nursing and mid-wifery. I am hopeful that the guidelines if implemented in a coordinated manner, will help improving the quality of pre-service nursing and mid-wifery and in turn improve the quality of RMNCH services at public health facilities especially in the rural areas.

(Dr. Rakesh Kumar)

### ACKNOWLEDGEMENT

Ministry of Health & FW is committed to improve the maternal, neonatal and child health outcomes in line with the Millennium Development Goals (MDGs). This document has been prepared with a view to facilitate the program managers, state nursing cells, faculty of the mid-wifery institutions and other stakeholders in strengthening the pre-service nursing and midwifery education.

The strategic approach adopted for this program includes a combination of top down and bottoms up programmatic activities where in the setting up of national/state nodal centers is initiated at the national or state levels, concurrently, the strengthening of the ANMTCs and GNM Schools is also initiated at the state and district levels, so as to minimize the time lag between the setting up of nodal centers and strengthening of ANM and GNM Schools

I would like to express my sincere gratitude to Ms Anuradha Gupta, AS& MD, NRHM, GOI for steering the process of strengthening the nursing mid-wifery institutions & constantly guiding us in preparing this road-map. I would also like to thank Dr Rakesh Kumar, JS (RCH), MOHFW & Dr. Vishwas Mehta, JS (Nursing), MOHFW for their regular guidance and support in initiating this process.

I would like to acknowledge the contribution of Mr. T. Dileep Kumar, President, INC & Dr Bulbul Sood, Country Director, JHPIEGO for their proactive support in framing these guidelines. The technical support given by Dr. Somesh Kumar & Ms. P. Princy Fernando of JHPIEGO has been vital while the guidelines were being prepared. The support and inputs given by the technical officers of UN and International agencies i.e. UNICEF, UNFPA, USAID, US Department of HHS, WHO, DFID, SIDA & NIPI has been valuable. The positive role & willingness of Dr J.K Das, Director, NIHFV for spearheading the institutional process of strengthening the pre-service midwifery teaching and training is a firm step in institutionalizing this effort. Lastly, I would like to appreciate the effort put forth by Dr Pushkar Kumar, Dr Ravinder Kaur & Dr Rajeev Agarwal, Senior Consultants, MH Division in bringing out this document.

There are many experts and institutions who have contributed and participated in the deliberations even at short notice & without fail, my sincere thanks to all of them for their untiring effort. Once the task is accomplished, this will be an expression of the combined efforts put by one and all.

Finally my earnest request to all State Mission Directors and program officers for taking personal initiative and interest in the implementation of the road- map for strengthening nursing and ANM teaching and training.

I wish success for the programme.

  
(Dr. Himanshu Bhushan)

# Strengthening Pre-Service Education for Nursing and Midwifery Cadre in India

## Operational Guidelines

### Introduction

The National Rural Health Mission (NRHM) of the Government of India (GoI) has brought back the focus on delivery of essential reproductive, maternal, newborn and child health (RMNCH) interventions at the level of Primary Health Centers. The overarching objective of NRHM is to increase the accessibility of these services to the vast rural population of India. The recent policies and programs, focusing on RMNCH, Janani Suraksha Yojana (JSY scheme), Janani Shishu Suraksha Karyakram (JSSK), Integrated Management of Newborn and Childhood Illnesses (IMNCI), Operationalization of 24/7 PHCs and First Referral Units; have put an increased emphasis on the role of the basic health worker, the Auxiliary Nurse Midwife (ANM), and General Nurse Midwife (GNM) in the provision of comprehensive RMNCH services in the country, especially in rural areas.

While the GoI has initiated the above mentioned programs like the JSY and JSSK to increase the access to institutional care for childbirth and other basic RMNCH services, the quality of care at the health facilities is not consistent throughout the country. One of the main contributing factors towards this inconsistent quality of care is the sub-optimal competency of the providers, especially the nurse-midwives, working in the public sector facilities. This problem is further aggravated by the shortage of the human resources, especially the nurse-midwives, at the public sector facilities. Therefore, capacity of the states to produce sufficient number of competent and confident nurse-midwives is crucial for the success of the various RMNCH programs being launched and implemented by the GoI. This is all the more important because the staff nurses and ANMs are the providers of basic health care at the lowest level of the health system and therefore the availability of adequate number of competent nurse-midwives in the country is a critical determinant to accessibility of quality RMNCH services to the vast rural population in the country.

To respond to this need for development of the adequate number of competent and confident basic healthcare service providers who can provide quality RMNCH services at the grassroots level, a comprehensive initiative to strengthen the foundation of pre-service education (PSE) for these nurse-midwives is being undertaken by the Ministry of Health and Family Welfare (MoHFW) in collaboration with the Indian Nursing Council (INC).

### Strategic Approach

The MoHFW, GoI, in collaboration with INC, and with support from various development agencies, has initiated a national program for strengthening the quality of pre-service education at the GNM Schools and ANM training centers in the 10 high focus states of Madhya Pradesh, Jharkhand, Bihar, Rajasthan, Uttar Pradesh, Uttarakhand, Chhattisgarh, Orissa, Assam and Jammu & Kashmir.

However, though only 10 high focus states have been identified for implementation of this program, it is strongly recommended that other states also adopt/adapt this program for strengthening quality of pre-service education for the nursing midwifery cadre in their nursing-midwifery institutions.

The strategic approach for strengthening GNM Schools and ANMTCs include establishment of a number of National/State Nodal Centers (Upgraded Colleges of Nursing) to steer the process. It is envisioned that these Nodal Centers, besides serving as model teaching institutions, would also serve as pedagogic resource centers for strengthening PSE at the GNM Schools and ANM Training Centers

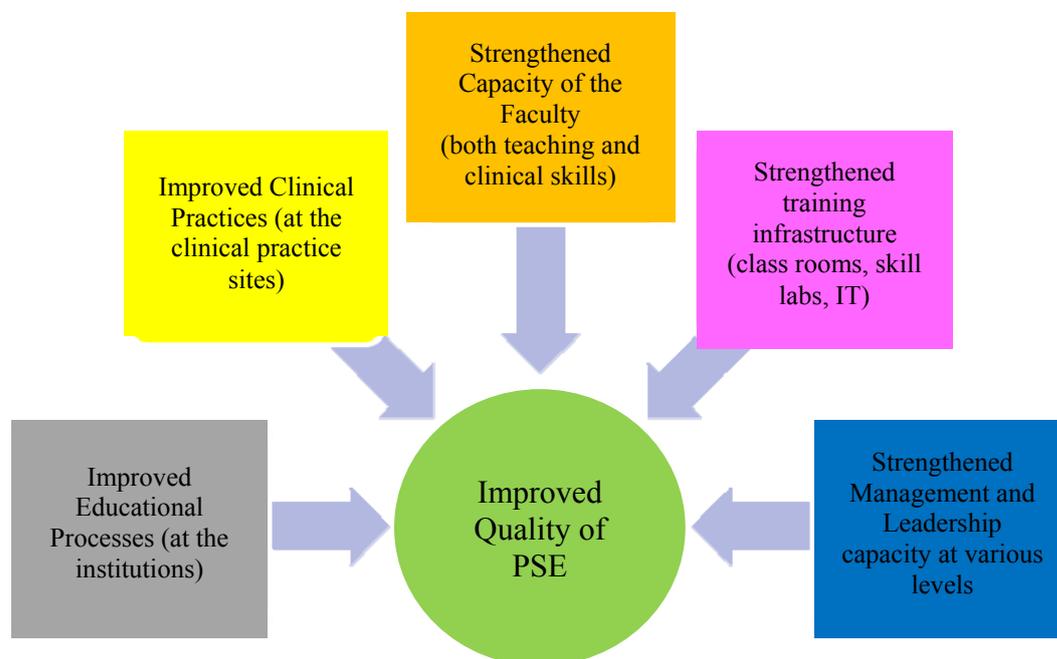

(ANMTCs) in their respective regions and assigned states and also provide support in the concurrent strengthening of these ANMTCs and GNM Schools. It is important to note that the goal of this initiative is to strengthen the quality of education at the ANM and GNM schools with special priority to high focus states of India. The national/state nodal centers are being set up to just act as intermediaries of the Nursing Division of MOHFW and the Indian Nursing Council, for bringing about this improvement in the quality of education at the ANM and GNM schools. Therefore, the setting up of national/state nodal centers should be viewed in the perspective of the strengthening of PSE at the ANM and GNM schools and not as standalone milestones or deliverables.

The approach adopted for this program includes a combination of top down and bottoms up programmatic activities where in the setting up of national/state nodal centers is initiated at the national or state levels, concurrently, the strengthening of the ANMTCs and GNM Schools is also initiated at the state and district levels, so as to minimize the time lag between the setting up of nodal centers and strengthening of ANM and GNM Schools.

Towards this objective, the initiative will work on strengthening of the five of the most critical dimensions of the Pre Service Education (PSE) at all the ANM and GNM schools, which include the following:

- ❖ Educational Processes at the schools
- ❖ Clinical practices at the respective clinical practice sites of the schools
- ❖ Capacity, including the clinical skills and teaching skills, of the faculty
- ❖ Training infrastructure of the schools, including the skill lab, library and the IT labs
- ❖ Management capacity for overall strengthening of the PSE for Nursing & Midwifery

### Components of the initiative for improving quality of nursing-midwifery education

## Programmatic Approach

### Goal:

Strengthen the foundation of nursing and midwifery education in ten high focus states of India, resulting in higher functioning educational institutions and better prepared service providers i.e. ANMs and nurse midwives who are competent, confident and ready to work, especially in rural areas.

### Priority states:

Madhya Pradesh, Jharkhand, Bihar, Rajasthan, Uttar Pradesh, Uttarakhand, Chhattisgarh, Orissa, Assam and Jammu & Kashmir. **However, though only 10 high focus states have been identified for implementation of this program, other states can also adopt/adapt this program for strengthening quality of pre-service education for the nursing midwifery cadre in their nursing-midwifery institutions.**

### Objectives:

- ❖ To strengthen the educational and clinical standards and processes in National Nodal Centers of Pre-service Nursing and Midwifery Education (NME), towards enabling them to assume responsibility for the training and mentoring of master trainers of SNC and faculty of ANM/GNM Schools.
- ❖ To strengthen the educational and clinical standards and processes in State Nodal Centers of Pre-service Nursing and Midwifery Education (NME), towards enabling them to assume responsibility for the training and mentoring faculty of ANM/GNM Schools;
- ❖ To strengthen the quality of Pre-service Nursing and Midwifery Education at the ANM/GNM Schools by improving the MNCH/FP knowledge and clinical skills of ANM/GNM School faculty and implementing the quality improvement process for strengthening educational processes and clinical practices at all ANM/GNM Schools;

The identified NNCs/SNCs will be set up by the implementation of the INC endorsed performance standards for the national/state nodal centers through the quality improvement process and standardization. It is expected that an institution can be recognized as a nodal center once it achieves 70% to 80% of the performance standards which ultimately helps in strengthening of the educational and clinical processes; strengthening of the training infrastructure by establishment of the skills lab, computer lab, library and strengthening of the management, teaching and clinical capacity of the faculty of these institutions.

Concurrently the ANM/GNM schools also will be strengthened through the use of simple, measurable performance standards which serve as a quality improvement guide. These performance standards provide a structure for program support and a criterion-based quality improvement system which will allow the GoI/INC, through its nodal centers (State/National level) for nursing and midwifery education, to provide specific ongoing technical support for strengthening of the quality of education at these institutions.

### Expected Outcomes:

- ❖ National Nodal Centers and State Nodal Centers established at pre-determined colleges of Nursing.
- ❖ Improved quality of pre-service education at the ANM/GNM Schools in the ten states:

- GNM Schools and ANMTCs strengthened in terms of faculty positions, training infrastructure, educational processes, clinical practices and achieving and sustaining at least 70% of the INC approved performance standards.
  - Strengthened capacity of the faculty of the GNM Schools and ANMTCs by focused refresher training in teaching and clinical skills.
- ❖ Strengthened capacity at the national and state levels to better manage the nursing and midwifery education in the country, especially focusing on these ten high focus states.

## Program Implementation Plan

### Setting up of National Technical Advisory Group/Task Force:

MOHFW, GoI, jointly with the INC, will assemble a national technical advisory group/task force for advising and steering this initiative to strengthen the quality of pre-service education for the nursing midwifery cadre in India. This group will include representative/s from MOHFW, GoI, INC, NIHF, representatives of the state governments, representatives of the national and state nodal centers and development Agencies. The role of this group will include the following:

- Meet on a semi-annual basis (more frequently if required) to review the status of implementation of the program,
- Advise the program on the strategic and operational directions for ensuring efficient and effective implementation,
- Advise the program on the broad timelines and its adherence to the implementation,
- Advise the program on new/additional interventions and or modifications in the current interventions, for ensuring effective implementation of the program and

### Setting up of National/State Nodal Centers:

#### Major activities and steps:

- **Identification of National/State Nodal Centers:** Identification of the Colleges of Nursing to be strengthened as National/State Nodal Centers. The criteria for selection of these Colleges of Nursing are as follows:
  - The institution should be a college of nursing, preferably located at a central location in the state.
  - The management of the institution should be willing to accept the additional responsibilities of a nodal center.
  - The institution should have physical space/infrastructure to undertake the responsibilities of the nodal center, like housing the additional nodal center staff, training the faculty of the GNM schools and ANMTCs.
  - The institution should have access to a well functional Department of Obstetrics and gynecology at its own/close by institution with permission to the nurse-midwives to conduct deliveries.
  - The institution should be ready to follow the norms and guidelines of the program

Till now, the following colleges of nursing have been identified by the MOHFW, GoI and the INC, for developing them as national nodal centers:

- College of Nursing, NRS Medical College, Kolkata
  - College of Nursing, CMC Vellore.
  - College of Nursing, CMC Ludhiana
  - College of Nursing, St. Stephen’s Hospital, New Delhi
  - Government College of Nursing, Vadodara
  - College of Nursing, Safdarjung Hospital, New Delhi
  - RAK College of Nursing, New Delhi.
- **Identification of state nodal centers:** Every state will have at least one college of nursing identified as state nodal center on the criteria mentioned above. States like Bihar and Uttarakhand have already identified existing colleges of nursing for setting up of state nodal centers.

Other states need to identify the same on priority and send the names of the identified institutes to the MoHFW, GoI, with a copy to NIHFW, INC and supporting partners.

- **Orientation of faculty of nodal centers:** Three day orientation of the identified additional and regular faculty of the college of nursing (Principal, tutors), and the representatives from the clinical practice sites (HOD –OBG, LR in-charge, Nursing Superintendent/Matron) to the educational and clinical standards and its implementation, has to be undertaken at national nodal center. While the first two days of the workshop will be dedicated to the educational standards corresponding to the sections 1 to 4 of performance standards (see the table below), the third day of the workshop is committed to orientation on the clinical standards. The first two days of the orientation will be attended by faculty of the Nodal Centers while the third day of the meeting will also be attended by representatives of the clinical practice sites.

Performance standards for setting up of national /state nodal center (see Annexure 1)		
Sections	Areas	Number of Standards
1.	Class room and practical instruction	15
2.	Clinical instruction and practice	17
3.	School infrastructure and training materials	13
4.	School management	16
5.	Clinical site practices	21
	<b>TOTAL</b>	<b>82</b>

- **Baseline assessment:** Baseline assessment of the college and the clinical site using the educational and clinical standards and preparation of an action plan for addressing the identified gaps, to be done by the faculty of the college oriented at the national nodal center with support from the development partner.
- **Three day on-site training for standardization of clinical practices :** Three day on-site training for standardization of clinical practices at the respective clinical practice sites of the identified national/state nodal centers for updating the clinical skills and knowledge of clinical staff from the OBG and pediatrics department of these sites along with the identified faculty of the nodal center, to facilitate the implementation of the clinical standards at these sites. The first day of the training will focus on orientation to the clinical standards and discussion on the gaps of the clinical practice site as assessed in the baseline assessment. The next two days of the training will be focused on clinical update and standardization of clinical skills and knowledge of the providers of the clinical practice sites and select faculty of the nodal center. The action plan with timelines for

implementation of standards, along with the roles and responsibilities, will also be discussed with the stake holders during this training.

- **Finalization of the action plan:** A two day on site meeting/orientation of the faculty of the college of nursing to orient them on the educational standards, discussion on the baseline assessment findings and finalization of the action plan for strengthening of educational processes at the college of nursing. The action plan with timelines for implementation of standards, along with the roles and responsibilities, will also be discussed during this meeting.
- **Implementation of action plan:** Implementation of the action plan developed as per the gaps identified during baseline assessments of clinical and educational processes, to be done by the faculty of the identified institutions. Periodic internal assessments to be done at an interval of every four weeks so that the standards are achieved at least upto 70% within six to nine months of initiation of the process. .
- **Hiring of Faculty:** Advertise, conduct interview and hire 2-3 additional faculty at the Nodal Centers (TOR in *Annexure 4*). The institution to also identify at least three-four existing faculty who would take up the responsibility for strengthening of the quality of education at these institutions and also conduct trainings for the faculty of ANM and GNM schools once the nodal center is established.
- **Strengthening of training infrastructure:** Strengthen the skills labs, library and IT infrastructure of the college of nursing for enabling it to assume additional responsibilities of the nodal center. The GoI has developed the guidelines for setting up the skill labs for the nodal centers (*Annexure 2: Specifications of mannequins and equipments for skills lab, Annexure 3: List of Skills station, Annexure 5: List of equipment's, Mannequins and charts of skill labs of Nodal Centers*) and these guidelines should be followed for setting up of skill labs for the nodal centers. The list of books for the library and equipments for the IT lab is also annexed for guiding the strengthening of the library and IT lab of the nodal center (*Annexure 6: List of the books for the library at NNC/SNC, Annexure 7: List of the books for the library of ANMTC and Annexure 8: Specifications for the IT Lab of Nodal Centers*) The existing infrastructure of the college of nursing may have to be strengthened for setting up of the skill lab, library and IT lab for enabling the college of nursing to assume the responsibilities of nodal center.
- **Identification of additional faculty:** While the educational and clinical standards are being implemented, identified faculty from the NNC and SNC, including the additionally hired faculty, shall be sent to a functional National Nodal Center for a 10 day training to equip them as master trainers for the conduction of the six-week training for the faculty of the ANM and GNM schools.
- **External assessment:** On conducting the periodic internal assessments based on the performance standards (*Annexure 1: Performance standards of the Nodal Centers and GNM/ANM Schools*) as stated above, if the institution is confident that they have achieved 70-80% of the performance standards, the authorities of these nodal centers will call for external assessment of the educational and clinical standards of the college of nursing by the Indian Nursing Council, with intimation to NIHF and Nursing Division, MoHFW, GoI, for assessing whether the college of nursing has achieved the score for certification by INC as a national nodal center. On conducting internal assessments, if the staff of the college of nursing feels that they have not achieved 70-80% clinical and educational standards, they should again take time bound steps to address the remaining gaps towards achieving these scores.

#### **Expected Outcomes from setting up of national/state nodal centers:**

- Strengthened educational processes and infrastructure in the NNC/SNC
- Strengthened clinical practices in the clinical practice sites of the National Nodal Centres (NNC)/ State Nodal Centres (SNC)

- Improved knowledge & clinical skills of the faculty of the nodal centers for MNCH/FP
- Strengthened teaching and clinical skills of the faculty of the nodal centers.
- Well-functioning College of Nursing identified and strengthened to function as national/state nodal center (SNC).

#### **Roles and responsibilities of the established nodal centers:**

- Support the state nursing cell for developing the roadmap for strengthening pre-service nursing midwifery education and for budgeting the same.
- Advertise, conduct interview and hire a program assistant to coordinate the 6 weeks trainings.
- Conduct 6 weeks trainings for the faculty of the GNM/ANM schools . Trainings to be planned so that not more than 2 faculty from an ANMTC participates in the same batch of training.
- Faculty of the NNC/SNC to conduct mentorship visit to the GNM Schools and ANMTCs, from which the faculty have been trained, to hand hold them in post training transfer of learning and onsite follow up. (Each ANMTC to be visited at least once every 6 months) (*Annexure 9: SOP of the mentoring visit of the faculty of the nodal center*).

### **Strengthening the quality of pre-service Nursing and Midwifery Education at the ANMTCs and GNM Schools:**

#### **Major activities and steps:**

- **Sanctioning of faculty for GNM schools and ANMTCs:** Policy decision and budgeting at the state level to be made to sanction posts at the GNM schools and ANMTCs as per the INC requirements and plans for recruitment for the posts to be made.
- **Hiring of Faculty:** Advertise, conduct interview and recruit faculty for all the GNM Schools and ANMTCs so that the HR shortages can be addressed.
- **Orientation of faculty:** Three day orientation of the identified additional and regular faculty of the ANM/GNM Schools (Principal, tutors), and the representatives from the clinical practice sites (HOD –OBG, LR in-charge, NS) of these schools to the educational and clinical standards and its implementation. While the first two days of the workshop will be dedicated to the educational standards corresponding to the sections 1<sup>st</sup> to 4<sup>th</sup> of section of performance standards, the third day of the workshop is committed to orientation on the clinical standards. The first two days will be attended by faculty of the GNM/ANM Schools while the third day of the meeting will also be attended by representatives of the clinical practice sites.
- Based on the capacity of the state/development partner supporting the state, the state can stagger the strengthening of ANM/GNM Schools and can do it in a phased manner, selecting a select number of ANM/GNM Schools to be strengthened in the first phase and then undertake the strengthening of the rest of the ANM/GNM Schools in the subsequent phase. This planning process will be led by the state nursing cell and supported by state nodal center.
- **Baseline assessment :** Baseline assessments of the GNM and ANM schools and their affiliated clinical sites using the performance standards and preparation of an action plan for addressing the identified gaps to be conducted by the faculty of the ANMTC/ GNM School, supported by the faculty of SNC and respective development partners.
- **Three day on-site training for standardization of clinical practices :** Three day on-site training for standardization of clinical practices at the respective clinical practice sites of the ANM/GNM Schools for updating the clinical skills and knowledge of clinical staff from the OBG and pediatrics department of these sites along with the identified faculty of the ANM/GNM School, to facilitate the implementation of the clinical standards at these sites. The first day of the training will focus on orientation to the clinical standards and discussion on the gaps of the clinical

practice site as assessed in the baseline assessment. The next two days of the training will be focused on clinical update and standardization of clinical skills and knowledge of the providers of the clinical practice sites and select faculty of the ANM/GNM Schools. The action plan with timelines for implementation of standards, along with the roles and responsibilities, will also be discussed with the stake holders during this training.

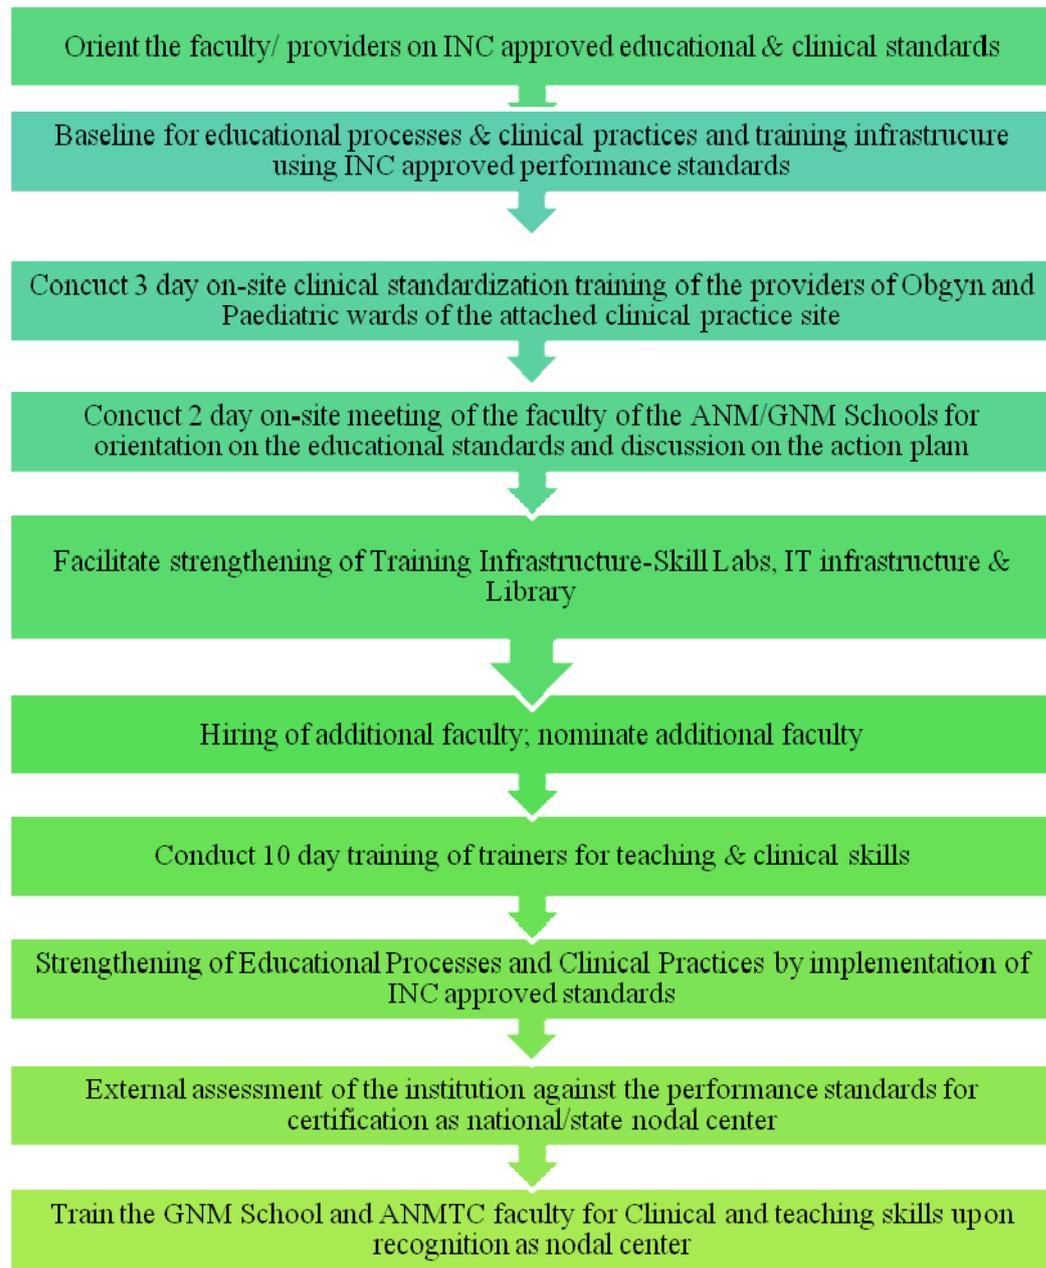

- **Finalization of the action plan:** A two day on site meeting/orientation of the faculty of the ANM/GNM Schools to orient them on the educational standards, discussion on the baseline assessment findings and finalization of the action plan for strengthening of educational processes at the ANM/GNM Schools. The action plan with timelines for implementation of standards, along with the roles and responsibilities, will also be discussed during this meeting.
- **Implementation of action plan:** Implementation of the action plan developed as per the gaps identified during baseline assessments of clinical and educational processes, to be done by the faculty of the ANM/GNM Schools. Periodic internal assessments to be done at an interval of every four weeks so that the standards are achieved at least upto 70% within six to nine months of initiation of the process.
- **Strengthening of training infrastructure:** Strengthen the skills labs, library and IT infrastructure of the ANM/GNM Schools. The existing infrastructure of the ANM/GNM Schools may have to be strengthened for setting up of the skill lab, library and IT labs.
- **Six weeks trainings:** Faculty from the ANMTC/ GNM School to be trained in the 6 weeks trainings at the SNC/NNC.

#### Main components of the 6 weeks curriculum:

- Effective teaching skills
- Skilled birth attendance
- Integrated Management of Neonatal and Childhood illness
- Prevention of Reproductive tract infections including prevention of Parent to Child Transmission of HIV
- Family Planning
- Quality improvement in nursing education (SBMR)

- **Implementation of action plan (contd.):** Implementation of the performance standards to strengthen the educational and clinical practices at these institutions to continue as per the action plans developed during baseline and subsequent internal assessments.
- Faculty at the ANMTCs/GNM Schools will start implementing competency based trainings at their ANMTC/ GNM School while teaching their students. The strengthened skills lab, library and computer labs should be fully utilized during the trainings.
- **Mentorship visits:** Faculty of the NNC/SNC to conduct mentorship visit to the GNM Schools and ANMTCs from which the faculty have been trained to hand hold them in post training transfer of learning and support the above mentioned steps for strengthening of GNM/ANM Schools. (Each GNM School/ANMTC to be visited at least once every 6 months) (*Annexure 9*: Standard Operating Procedure (SOP) of the mentoring visit of the faculty of the nodal center).

## Critical steps for setting up of National/State Nodal Centers and strengthening of GNM schools and ANMTCs

# ANNEXURE 1:

## PERFORMANCE STANDARDS OF THE NODAL CENTERS, ANM AND GNM SCHOOLS

### INTRODUCTION

This document describes the performance and quality improvement standards for the provision of Pre service nursing and midwifery education in India. This initiative of the GoI aims at contributing to the Millennium Development Goals 4 and 5 by achieving the planned targets of reducing the maternal mortality ratio as well as the infant mortality rates in the country.

### WHAT ARE THESE STANDARDS

As a step towards addressing the quality pre service nursing and midwifery education, Indian Nursing Council with technical assistance from Jhpiego through the USAID supported MCHIP project have developed these 'Performance Standards for Nodal centers and ANM/GNM Schools for strengthening the pre-service Nursing and Midwifery education'. These standards are a performance improvement tool intended for periodic use by the service providers, supervisors and managers to monitor and improve the quality of pre service education at the Nodal centers and ANM/GNM Schools.

### WHO CAN USE THESE STANDARDS

All sections of the Performance Standards are relevant for all the tutors at the Nodal center .ANM/GNM School. Through these standards tutors can identify whether their method of teaching and demonstrating is according to standards and they also will be able to correct the practices with the help of the standards. They also need to ensure that all equipment and supplies required for the services are available and functional in their demonstration rooms. They need to look at these sections of the standards tool and self-assess their performance and also use the tool as a checklist to ensure all the tasks are being accomplished. They need to know that they will be responsible for the results of the assessment of these standards conducted by their supervisors from time to time at least once a quarter to assess quality of pre service education at their nodal center and GNM/ANM School. The nursing and non-nursing supervisors and managers of the training centre, district, region or state can use the same tool to assess the quality of pre service education at the training centres periodically. As the same tool will be used by all for the services, there is a high degree of objectivity of the assessment.

### HOW TO RECORD FINDINGS

There are four columns to record the assessment findings with date. This will allow periodic assessment on the same tool to identify the progress over time, discuss observations with the concerned team and assess the reasons of the standards and criteria not being met to help resolve them for future improvement. During the assessment the assessor needs to write 'Y' for 'YES' if the task is accomplished as per standards, 'N' for tasks 'NOT DONE' or 'NOT DONE AS PER STANDARDS' and 'NA' if the task is 'NOT APPLICABLE' for the situation being observed. A standard will be considered achieved **only if all** the criteria of it are accomplished ('Y' and 'NA'). The 'NA' in a standard will be considered with 'Yes' and as achieved. If there is any specific qualitative finding for any criteria, the assessor may mention it in the column of comments with date in brackets.

### SCORING

At the end of each section there is a table with the total number of standards for that section. There is space to record the number of standards observed and the number of standards met for that section with date of observation. List the standards accordingly in this table. Each achieved standard with all criteria 'Yes' and 'NA' scores one point and if the criteria is not achieved (N) then the score will be zero. Write the sum of the points achieved for the section in row three at the appropriate place.

At the end of the tool is a summary sheet of scores. Note the total number of standards observed and total standards met in rows 2 and 3 respectively of column 2. Mark the score % by calculating the total number of standards met divided by total number of standards observed multiplied by 100. Eg. If the total standards observed are 50 and the total standards met are 30, then the Score % will be =  $30/50 \times 100 = 60\%$ . Note this score in column number 3 adjacent to the total number of standards met.

The purpose of this tool is not to find fault with the subordinate staff or service providers by the managers/supervisors right from the ANM training centre to the state level, but is to work as a team with different roles to accomplish the achievement of the standards of quality pre service education to the students.

The service delivery guidelines of the Ministry of Health and Family Welfare, Maternal health and Family Planning Division, Government of India, INC curriculum for ANM pre service education have been referred to develop these guidelines. We hope that the service providers, the supervisors and managers of the facilities find these standards useful in their performance for improving quality of pre service nursing and midwifery education for nodal centers and ANM/GNM Schools in India.

# Performance Standards for National/ State Nodal Centers for Nursing and Midwifery Education in India

# Classroom and Practical Instruction

March 2010

## Performance Standards for National/State Nodal Centers Classroom and Practical Instruction

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_ Date: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
1. Nursing faculty has the required qualifications.	Verify through review of administrative records if:					
	<ul style="list-style-type: none"> <li>There is evidence that the Nodal center Principal has M.Sc. degree (with 10 years' experience, at five years in teaching)</li> </ul>					
	<ul style="list-style-type: none"> <li>All nursing faculty have evidence of M.Sc. Nursing with two years' experience, at least two nursing faculty have MCH/OB/Community/Pediatrics experience</li> </ul>					
	<ul style="list-style-type: none"> <li>Evidence exists of a total of two years of clinical practice experience within the past five years for each faculty member or 20% of time is spent in practice</li> </ul>					
	<ul style="list-style-type: none"> <li>If nursing faculty is newly graduated, they must work a minimum of 20% in clinical area</li> </ul>					
	<ul style="list-style-type: none"> <li>Nursing faculty members who teach OBS/GYNE have received at least one</li> </ul>					
	<ul style="list-style-type: none"> <li>MCH/FP/Newborn related knowledge update in the past two years</li> </ul>					
2. Nursing faculty come to class prepared.	Verify through direct observation or interview and teaching plans and materials review if the classroom Nursing faculty:					
	<ul style="list-style-type: none"> <li>Developed and distributed a course syllabus, including course calendar</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>▪ Has developed a lesson plan to guide teaching, including learning objectives</li> <li>▪ Has prepared, or uses visual aids during the class</li> </ul>					
3. Nursing faculty is teaching according to the curriculum and related learning resource materials.	During classroom instruction, observe whether the Nursing faculty:					
	<ul style="list-style-type: none"> <li>▪ Specifies which unit is being taught</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Refers to the correct reference books</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Uses the learning resource materials for that unit</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Review academic calendar or course syllabus or schedule and compare to curriculum to determine consistency</li> </ul>					
4. The nursing faculty uses effective session introduction and summary skills.	Observe the nursing faculty during the session to verify that he/she:					
	<ul style="list-style-type: none"> <li>▪ Introduces session using an engaging technique</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ States objectives as a part of introduction</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Presents effective summary: <ul style="list-style-type: none"> <li>— Draws the main points of presentation</li> <li>— Links to next topic</li> </ul> </li> </ul>					
5. The nursing faculty uses effective facilitation skills.	Observe the nursing faculty during the session to verify that he/she:					
	<ul style="list-style-type: none"> <li>▪ Uses student's names often</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>Uses notes or a teaching plan</li> </ul>					
	<ul style="list-style-type: none"> <li>Maintains eye contact with the students</li> </ul>					
	<ul style="list-style-type: none"> <li>Projects their voice so that all students can hear</li> </ul>					
	<ul style="list-style-type: none"> <li>Maintains energy</li> </ul>					
	<ul style="list-style-type: none"> <li>Uses audiovisuals effectively</li> </ul>					
	<ul style="list-style-type: none"> <li>Provides opportunities for application or practice of presentation content</li> </ul>					
6. The nursing faculty uses effective questioning skills	Observe the nursing faculty during the session to verify that he/she:					
	<ul style="list-style-type: none"> <li>Asks questions of the entire group</li> </ul>					
	<ul style="list-style-type: none"> <li>Targets question to individuals</li> </ul>					
	<ul style="list-style-type: none"> <li>Asks questions at a variety of levels (recall, application, analysis)</li> </ul>					
	<ul style="list-style-type: none"> <li>Responds to students questions</li> </ul>					
7. Nursing faculty plan and administer knowledge assessments properly. <sup>1</sup>	Review school records to verify if:					
	<ul style="list-style-type: none"> <li>Summative knowledge assessments were administered per INC norms</li> </ul>					
	<ul style="list-style-type: none"> <li>Formative knowledge assessments are administered at least mid and end term</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>Students are informed at least 1 week in advance of assessment</li> </ul>					
	Review an MCH/FP/Newborn related exam to verify if:					
	<ul style="list-style-type: none"> <li>Questions related to learning objectives in modules were covered</li> </ul>					
	<ul style="list-style-type: none"> <li>Question bank exists as a Nursing faculty resource</li> </ul>					
	Verify through discussion or interview with at least two Nursing faculty, if:					
	<ul style="list-style-type: none"> <li>Knowledge assessments are reviewed periodically to determine reliability, fairness, validity and adherence to the course objectives.</li> </ul>					
	<ul style="list-style-type: none"> <li>Student papers were graded/scored consistently (e.g., using answer key)</li> </ul>					
8. Knowledge assessment is a valid measurement tool	Verify by reviewing written examination papers of two courses:					
	<ul style="list-style-type: none"> <li>Whether the cover page of test paper contains all of the following (general instruction, number and type of questions, number of pages and time allotted)</li> </ul>					
	<ul style="list-style-type: none"> <li>Whether the instructions for each section of questions is clear</li> </ul>					
	<ul style="list-style-type: none"> <li>Whether the value or points for each question are stated</li> </ul>					
	<ul style="list-style-type: none"> <li>Questions assess at a variety of levels (not only recall, also application, analysis)</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>▪ Whether the papers include at least two of the following types of questions: <i>(tick each type of question that is used and fill in, if not, use n/a)</i></li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Multiple choice questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Have an easy to understand stem</li> </ul>					
	<ul style="list-style-type: none"> <li>— Distractors are realistic</li> </ul>					
	<ul style="list-style-type: none"> <li>— Use the negative construction not at all or rarely (&lt;10 % of the questions)</li> </ul>					
	<ul style="list-style-type: none"> <li>— Number of choices never exceeds five</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Short answer questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Are clear and easy to understand</li> </ul>					
	<ul style="list-style-type: none"> <li>— Have adequate spaces for the student to enter answers</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Matching questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Focus on one theme</li> </ul>					
	<ul style="list-style-type: none"> <li>— Basis for matching is indicated</li> </ul>					
	<ul style="list-style-type: none"> <li>— Not less than five and not more than 15 questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Listed on one page</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>▪ True false questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Language clear, concise and understandable</li> </ul>					
	<ul style="list-style-type: none"> <li>— Avoid words and expressions that frequently identify statements as true or false</li> </ul>					
	<ul style="list-style-type: none"> <li>— Equivalent number of true and false statements</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Essays questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Have objective scoring criteria</li> </ul>					
	<ul style="list-style-type: none"> <li>— Are not overly broad, and focus the student on a specific area</li> </ul>					
9. Nursing faculty use a standard answer key for grading knowledge assessments	Verify by reviewing the answer key for last year's examination of two courses that:					
	<ul style="list-style-type: none"> <li>▪ Answer key does not contain entire question ( or is coded), in order to try to maintain the integrity of the question</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ System for linking answer key to test paper is clear</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Different question types have correct answers noted</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Multiple choice questions have a single correct answer noted</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Short answer questions have a clear answer or answers noted</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>Correct matching sequence of matching questions is noted</li> <li>Elements of correct answer for essay questions is noted</li> </ul>					
10. Knowledge assessments reflect course content and priorities	Review course objectives and written examinations of two maternal, reproductive health or newborn related courses:					
	<ul style="list-style-type: none"> <li>Ensure that priority cognitive course objectives related to maternal and newborn and reproductive health competencies are assessed in exams</li> </ul>					
11. Results of knowledge assessments and exams are recorded and reported properly.	Verify through records and other documents review and by interviewing the classroom Nursing faculty, if:					
	<ul style="list-style-type: none"> <li>Exams are structured so that they can be scored blindly (without seeing the student's name)</li> </ul>					
	<ul style="list-style-type: none"> <li>Assessment results are accurately recorded</li> </ul>					
	<ul style="list-style-type: none"> <li>Opportunities are offered for students to discuss the examination and scores with the Nursing faculty and view their graded papers under supervision</li> </ul>					
12. Nursing faculty use the skills learning lab effectively for demonstrating clinical skills.	Verify through observation or by interviewing the nursing faculty that:					
	Direct observation: Observe whether Nursing faculty introduce new skills by:					
	<ul style="list-style-type: none"> <li>Ensuring that all students have the necessary learning materials (e.g., supplies, models, checklists, etc.)</li> </ul>					
	<ul style="list-style-type: none"> <li>Describing the skill and why the skill is important</li> </ul>					
	<ul style="list-style-type: none"> <li>Describing steps involved in the skill, using the relevant checklist</li> </ul>

15. Teaching is routinely monitored for effectiveness at least two times per year	Through interviews with nursing faculty, students and by review of administrative records, verify that teaching is monitored for effectiveness:					
	There is an evaluation of nursing faculty performance on:					
	— Teaching skills					
	— Interpersonal and communication skills					
	— Review recorded on file					
	There are evaluations by students in following areas: (Note: these evaluations are not connected with faculty <i>promotion</i> )					
	— Relevance of teaching to course objectives					
	— Effectiveness of instruction					
	— Relevance of knowledge and skill assessments to course objectives on file					
	There is a review of students performance in:					
	— Knowledge					
	— Clinical assessments					

<b>TOTAL STANDARDS:</b>	<b>15</b>
TOTAL STANDARDS OBSERVED:	
TOTAL STANDARDS ACHIEVED:	
PERCENT ACHIEVEMENT (STANDARDS ACHIEVED / STANDARDS OBSERVED)	

<sup>1</sup> Summative assessments are counted toward the final grade. Formative assessments do not count toward final grade (quiz, skill practice, case questions, etc.). Reliability—measuring achievement the same regardless of who the examiner is or which midwifery campus administers the assessment. Fairness—assessing teaching and learning that is happening with appropriate tools and in an unbiased manner (proper translation, no trick questions, graded blindly). Validity—measuring what you think you are measuring. Test questions should match the learning objectives.

	Determine by interviewing school administrator and nursing faculty/tutors and reviewing administrative records whether:					
	<ul style="list-style-type: none"> <li>▪ Clinical practice sites are available for:</li> </ul>					
	— Antenatal care					
	— Labor/assessment of patients presenting with signs of labor					
	— Delivery and the management of delivery complications					
	— Newborn care and management of newborn problems					
	— Postpartum care					
	— Management of obstetric emergencies					
	— Family planning					
	— General gynecologic care					
	Clinical practice sites represent the variety of types of facilities where graduates can be expected to work including:					
	— A hospital or First Referral Unit (FRU)					
	— 24/7 Primary Health Center or CHC					
— Sub-center or MCH clinics						
3. The infrastructure of	Observe in the clinical practice site whether the place:					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS	
		Date:	Date:	Date:	Date:		
the clinical practice area is conducive to clinical practice	<ul style="list-style-type: none"> <li>Has sufficient space in each clinical area to accommodate four to six students working alongside staff</li> </ul>						
	<ul style="list-style-type: none"> <li>Has space where preceptors and students can meet to review objectives and discuss practice</li> </ul>						
4. Clinical volume and practice provides students with sufficient practice to meet clinical objectives	Determine by reviewing statistical records whether there is sufficient clinical volume:						
	<ul style="list-style-type: none"> <li>Total volume is at least 20 “competent” deliveries per student</li> </ul>						
	<ul style="list-style-type: none"> <li>30 antepartum examinations provided</li> </ul>						
	<ul style="list-style-type: none"> <li>20 postpartum care of woman and newborn</li> </ul>						
	<ul style="list-style-type: none"> <li>Five vaginal obstetric examinations</li> </ul>						
	<ul style="list-style-type: none"> <li>Five IUD insertions</li> </ul>						
	<ul style="list-style-type: none"> <li>Five neonatal resuscitations</li> </ul>						
	<ul style="list-style-type: none"> <li>Five indicated episiotomy and repairs</li> </ul>						
5. The school has an agreement with the clinical practice sites that allows students’ learning.	Verify with the school administrator if:						
	<ul style="list-style-type: none"> <li>There is a Memorandum of Understanding or permission letter between the school and the local health authorities (specific title) that states that each clinical practice site has a policy that allows students to directly participate in supervised clinical care of patients</li> </ul>						
	There is an agreement with each of the following types of facilities:						
	<ul style="list-style-type: none"> <li>District Hospital</li> </ul>						
	<ul style="list-style-type: none"> <li>First Referral Unit/Community Health Center</li> </ul>

## Performance Standards for National/State Nodal Centers: School Infrastructure and Training Material

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_ Date: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
<b>ENVIRONMENT</b>						
1. The school has the basic infrastructure to function effectively	Observe that the school has:					
	▪ GNM school: four classrooms- each at least 720 sq meter					
	▪ B.Sc: four classrooms- each at least 720 sq meter					
	▪ Learning/skills laboratory					
	▪ Library facility					
	▪ Administrative space					
	▪ Areas for students to gather for eating and socializing					
	▪ Toilet facilities for faculty and staff (1:10 ratio)					
	▪ Toilet facilities for students					
	▪ Photocopy machine					
	▪ Computer in office					
	▪ Printer					
	▪ Fax machine					
▪ Phone						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
2. The school facilities are clean	Visit the school facilities to observe the absence of dust, soil, trash, insects, and spider webs in the following areas:					
	▪ Classrooms					
	▪ Learning/skills laboratory					
	▪ Library					
	▪ Administrative space					
	▪ Areas for students to gather for eating and socializing					
	▪ Toilet facilities					
	▪ Photocopy machine area					
3. Classrooms are comfortable and properly equipped for teaching.	Observe if the classrooms have:					
	▪ Adequate light, either natural or electrical					
	▪ Adequate ventilation (open windows or fan, air conditioner, fans)					
	▪ Chairs in sufficient numbers for the largest class size					
	▪ Desks in sufficient numbers for the largest class size					
	▪ Adequate and flexible space for group learning activities					
	▪ Blackboard or whiteboard and means to erase it					
▪ Chalk or whiteboard markers						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	▪ Source of electricity					
	▪ Overhead projector with voltage stabilizer or projection unit					
	▪ Screen for projection					
	▪ Clock					
	▪ Flipchart and tripod (as needed)					
	▪ Notice board					
	▪ Waste bin					
4. The learning lab is properly equipped for practical learning sessions	Observe that learning/skills labs have:					
	▪ Adequate light, either natural or electrical					
	▪ Adequate ventilation (open windows, air conditioner, fans)					
	▪ Tables to place models					
	▪ Seating is available					
	▪ Blackboard or whiteboard					
	▪ Chalk or whiteboard markers					
	▪ Cabinets with locks for supplies and drugs					
	Anatomic models:

		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>Has audiovisual equipment for use by students (TV/VCR/DVD/Computer for interactive CD-ROMs/DVDs) <i>(This verification item can be met if the campus has a separate computer room or if TV/VCR is available elsewhere)</i></li> </ul>					
	<ul style="list-style-type: none"> <li>System of accountability exists for ensuring security of materials</li> </ul>					
9. The library has appropriate reference materials	Observe whether the library:					
	Has <u>10 copies</u> of all reference materials described in the curriculum:					
	— IMNCI modules, Government of India					
	— ENBC module, Government of India					
	— HIV module, Government of India					
	— SBA guidelines, Government of India ,2010 & hand book					
	— Myles Textbook of Midwifery					
	— Infection Prevention Guidelines - Universally approved					
	— Family Planning: a Global Handbook for Providers, USAID, JHU, WHO 2007					
	— WHO- Jhpiego, Effective Teaching Skills					
— Materials in English as available						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS	
		Date:	Date:	Date:	Date:		
10. The library supports internet access	Verify by observation that:						
	<ul style="list-style-type: none"> <li>Clinical and educational journals with on-line subscription to additional nursing and educational journals is available</li> </ul>						
	<ul style="list-style-type: none"> <li>There is Reliable internet access</li> </ul>						
	<ul style="list-style-type: none"> <li>Video conferencing (web cam/ skype) facility exists and staff know how to use it</li> </ul>						
11. The library is open to students on demand	Verify with the person in charge of the library if:						
	<ul style="list-style-type: none"> <li>Students are aware of library schedule</li> </ul>						
	<ul style="list-style-type: none"> <li>Schedule shows that library is accessible to students for at least two hours per day outside of class hours</li> </ul>						
12. The hostel is adequately furnished and suitable for women	Observe whether hostel:						
	<ul style="list-style-type: none"> <li>Has rules and regulations</li> </ul>						
	<ul style="list-style-type: none"> <li>Has a responsible person, e.g., hostel manager <sup>1</sup></li> </ul>						
	<ul style="list-style-type: none"> <li>Is accessible to the school facilities</li> </ul>						
	<ul style="list-style-type: none"> <li>Is secure, especially at night</li> </ul>						
	<ul style="list-style-type: none"> <li>Has beds/cushions</li> </ul>						
	<ul style="list-style-type: none"> <li>Has cupboards where students can lock personal belongings</li> </ul>						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	▪ Has clean and functional bathing and toilet facilities					
	▪ Has access to kitchen facilities					
	▪ Has someone present during the day when students are absent					
	▪ Has a space for students to see visitors					
	▪ Has heating for cold weather and ventilation for warm weather (open windows, fans, air conditioner)					
	▪ Electricity is available at least for five–six hours during night					
	▪ Living/dining room (TV optional)					
	▪ Has quiet study area with desk or table					
	▪ Has laundry facilities and an area for drying					
	▪ There is anti-fire equipment in emergency case (Sand, Bucket, Dibble)					
13. Nutritious meals are provided to students	Observe the nutrition/kitchen unit and interview students to verify whether meals:					
	▪ Are prepared in a clean and hygienic manner					
	▪ Include sources of protein and vitamins					
	▪ Breakfast, lunch and dinner are available for hostel students everyday					
	▪ Meals are arranged with input from students

# Performance Standards for National/State Nodal Centers: School Management

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_ Date: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
1. Student composition reflects national INC policies for nurse-midwifery education	Verify in the registry with record of student data if:					
	▪ Students are 15 to 35 years					
	Each student has passed an entrance exam equivalent:					
	▪ GNM equivalent 10 +2 years of education, preferably with science					
	▪ B.Sc equivalent 10 +2 years of education with science					
2. Class size is consistent with national INC policy and local capacity	Through review of school records, verify that the class size follows INC norms/ recommendations and does not exceed:					
	▪ Teacher-to-student ratio should be 1:10 in clinical area as per INC norms					
	— Theory: 1:60					
	— Small group/practical: 1:12					
	— Clinical: 1:4					
	▪ There is an adequate number of classrooms that accommodate all students in physical space of campus					
3. School has developed and implemented effective student	Through interview administrative staff and document review that:					
	▪ School has a policy that follows the state recruitment strategy					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
recruitment and admission strategies according to national student admission policy	<ul style="list-style-type: none"> <li>▪ School has a copy of INC student admission policy</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ School representatives recruit throughout the state</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ School has a selection committee</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ School admission criteria is in line with INC requirements</li> </ul>					
4. A record of students from entrance to exit is maintained	Verify by document review that:					
	<ul style="list-style-type: none"> <li>▪ Documentation exists to track students from entrance to exit</li> </ul>					
5. School academic policies exist and are applied	Verify through interview with the administration and review of records whether:					
	<ul style="list-style-type: none"> <li>▪ School academic policies are present and if they include the following topics</li> </ul>					
	— Attendance of students in clinic and classroom					
	— Dress code (specifically for clinical areas)					
	— Professional conduct in class, clinical areas, and on campus					
	— Disciplinary action procedures (probation, suspension, expulsion)					
	Randomly interview two faculty and two students to verify whether:					
	<ul style="list-style-type: none"> <li>▪ Faculty and students are aware of the policies</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS	
		Date:	Date:	Date:	Date:		
6. School has a clear academic calendar and provides it to students	Verify that the school has a written academic calendar that includes:						
	▪ Start and end dates of the academic year						
	▪ Approximate dates of holidays and student breaks according to national policy and curriculum						
	▪ Dates of examinations (first and second chance)						
	▪ Date after which students will not be admitted to the program (two weeks after start of first day of class is recommended since students must have 80% attendance to graduate)						
7. Written job descriptions exist for staff at the school	Verify that the job description is based on national government policy or NGO policy for:						
	▪ Nursing faculty						
	▪ Clinical preceptors (paid or unpaid)						
	▪ Administration staff						
8. A salary structure exists to pay school staff, and staff are paid on time	Through interviews with administration and two faculty, and review of administrative documents, verify if:						
	▪ A salary structure exists						
	▪ Staff are paid in accordance with the salary structure						
	▪ Staff are paid in a timely manner						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
9. The curriculum is available to administrators and faculty.	Verify through interview if:					
	<ul style="list-style-type: none"> <li>Administrators can locate the curriculum and learning resource package</li> </ul>					
	<ul style="list-style-type: none"> <li>Teachers can locate the curriculum and learning resource package</li> </ul>					
10. Master copies of the learning resource materials and teaching transparencies exist for duplication	Verify that:					
	<ul style="list-style-type: none"> <li>Principal/program coordinators can locate the master copy of the learning resource materials and teaching transparencies accompanying the curriculum (SBA, EmOC, FP, IMNCI, ENBC)</li> </ul>					
	<ul style="list-style-type: none"> <li>The master copy is of good quality for duplication</li> </ul>					
11. A staff performance evaluation system exists	Verify through interviews with Principal and staff, and review of administrative documents, if:					
	<ul style="list-style-type: none"> <li>Staff performance is measured on a regular basis</li> </ul>					
	<ul style="list-style-type: none"> <li>Evaluations of performance are performed using a standardized format</li> </ul>					
	<ul style="list-style-type: none"> <li>The evaluations are documented in writing</li> </ul>

		Date:	Date:	Date:	Date:		
12. Student academic performance standards exist and are known by students and teachers	Verify through review of administrative documents that academic performance and advancement standards exist and include:						
	▪ Percentage achievement on all written examinations						
	▪ Achievement on practical and clinical examinations						
	▪ Value of quizzes, practical exams, and final exam toward final score						
	▪ Minimum student performance for each semester/phase						
	▪ Criteria for academic dismissal						
	Verify through interviewing two faculty and two students that:						
	▪ Faculty are aware of standards						
	▪ Students are aware of standards						
13. Student performance results are documented centrally and in a confidential manner	Through document reviews and interviews with administration, verify that:						
	▪ There is a central record keeping system to track student knowledge assessment results						
	▪ There is a central record keeping system to track student clinical assessment results (at the school)						
	▪ Only faculty, coordinators, and administrators know the student results						
	▪ Opportunities for student counseling are available

### Clinical Instruction and Practice

**Performance Standards for Auxiliary Nurse Midwife Education:  
Clinical Instruction and Practice**

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
1. The number of clinical practice sites meets requirements of the curriculum	Determine by interviewing the tutors and by visiting clinical practice sites whether:					
	<ul style="list-style-type: none"> <li>▪ The number of sites is sufficient so that no more than six students are practicing in a particular service delivery area during one shift</li> </ul>					
	<b>SCORE</b>					
2. The variety of clinical sites meets the requirements of the curriculum	Determine by interviewing the principal and clinical instructors/tutors and reviewing administrative records (clinical rotation plan) whether:					
	<ul style="list-style-type: none"> <li>▪ Clinical practice sites are available for:</li> </ul>					
	- Antenatal care- OPD/ Clinic/ Observation room					
	- Labor/assessment of patients presenting with signs of labor					
	- Delivery and the management of delivery complications					
	- Newborn care and management of newborn problems					
- Postpartum care						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS	
		Date	Date	Date	Date		
	- Management of obstetric emergencies						
	- Family planning						
	- General gynecologic care						
	- OT, Recovery room						
	Clinical practice sites represent the variety of types of facilities where students can be expected to work after completion of the course including:						
	- A hospital or First Referral Unit						
	- 24/7 Primary Health Center or CHC						
	- Sub-center or MCH clinics						
<b>SCORE</b>							
3. The infrastructure of the clinical practice area is conducive to clinical practice	Observe in the clinical practice site whether the place:						
	▪ Has sufficient space in each clinical area to accommodate four to six students working alongside staff						
	▪ Has space where preceptors and students can meet to review objectives and discuss practice						
	<b>SCORE</b>						
4. Clinical volume at the clinical practice sites provides	Determine by reviewing statistical records of the clinical practice site whether there is sufficient clinical volume:						
	▪ Total volume is at least 20 “competent” deliveries per student						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS

## Section 4

### School Management

## Performance Standards for Auxiliary Nurse Midwife Education: School Management

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
1. Student composition reflects national INC policies for auxiliary nurse midwifery education	Verify in the admission registry of student if:					
	▪ Students are female					
	▪ Students are 17 to 30 years					
	▪ Each student has passed an entrance exam equivalent to 12 years of education					
	▪ There is a letter of support from students' families/husbands stating they are able to participate on ALL SHIFTS					
<b>SCORE</b>						
2. Class size is consistent with national INC policy and local capacity	Through review of school records, verify that the class size follows INC norms/ recommendations and does not exceed					
	▪ Teacher-to-student ratio should be not more than					
	- Theory: 1:60					
	- Small group/practical: 1:12					
	- Clinical: 1: 10					
▪ There is an adequate number of classrooms that accommodate all students in physical space of campus						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
	<b>SCORE</b>					
3. School has developed and implemented effective student recruitment and admission strategies according to national student admission policy	Through interviews with two tutors and two students and review of administrative record/ prospectus, verify that:					
	<ul style="list-style-type: none"> <li>▪ School has a policy that follows the state recruitment strategy</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ School representatives are a part of recruitment process</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ School has a copy of national/state / INC student admission policy</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ The school has a selection committee</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ The school admission criteria is in line with INC requirements</li> </ul>					
	<b>SCORE</b>					
4. School academic policies exist and are applied	Verify through interview with the administration and review of records whether:					
	<ul style="list-style-type: none"> <li>▪ School academic policies are present and if they include the following topics:</li> </ul>					
	<ul style="list-style-type: none"> <li>- Attendance of students in the classroom and clinical area</li> </ul>					
	<ul style="list-style-type: none"> <li>- Attendance of teachers</li> </ul>					
	<ul style="list-style-type: none"> <li>- Dress code (specifically for clinical areas)</li> </ul>					
	<ul style="list-style-type: none"> <li>- Professional conduct in class, clinical areas, and on campus</li> </ul>

	<b>SCORE</b>					
4. The Provider promptly cares for the woman with Pre-eclampsia/eclampsia	In the antenatal/labour room, observe women with pre-eclampsia/eclampsia and see if the provider does the following OR interview 2 health care providers in the antenatal/labour room and identify if the following tasks are done in the event of the woman having pre-eclampsia/eclampsia					
	<ul style="list-style-type: none"> <li>▪ Asks the woman if: <ul style="list-style-type: none"> <li>- She has pain in the upper abdomen (heartburn) or on right side below the diaphragm</li> <li>- She gets severe headache</li> <li>- She has visual problems (double vision, blurring or transient blindness)</li> <li>- She gets sudden or severe swelling of the face, lower back and hands</li> </ul> </li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
	- She is passing a reduced amount of urine					
	▪ Checks the BP, records observation and checks again after 4 hours. If the case is urgent, check after 1 hour					
	▪ Tests her urine for the presence of albumin (indicative of proteinuria) (Ensure that the urine sample is a midstream clean catch)					
	▪ Classifies Pre-eclampsia/eclampsia					
	- Hypertension – if the BP is equal to or more than 140/90 mmHg on two consecutive readings taken 4 hours apart					
	- Pre-eclampsia – hypertension with proteinuria					
	- Eclampsia – hypertension with proteinuria and convulsions					
	▪ Explains the danger signs listed below to her and her family, as they can be life-threatening to the woman and her baby					
	The danger signs are:					
	- Very high BP (above 160/110 mmHg)					
	- Severe headache, increasing in frequency and duration					
	- Visual disturbances (blurring, double vision, blindness)					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
	- Pain in the epigastrium (upper part of the abdomen)					
	- Oliguria (passing a reduced quantity of urine, i.e. less than 400 ml in 24 hours)					
	- Oedema (swelling), especially of the face, sacrum/lower back					
	▪ Starts the woman on anti-hypertensive medication and advises to come for regular follow-up					
	▪ Counsels the woman for delivery in the hospital					
	▪ In the event of eclampsia, gives first dose of magnesium sulphate and refers to a higher level facility for further management or admits the woman and monitors her BP and manages with Inj. Magnesium Sulphate.					
	▪ Offers supportive care immediately, as follows:					
	- Ensures that the airways are clear and breathing is normal. If the woman is unconscious, position her on her left lateral side					
	- Cleans her mouth and nostrils and apply gentle suction to remove secretions					
	- Removes any visible obstruction or foreign body from her mouth					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
	- Places the padded mouth gag between the upper and lower jaws to prevent tongue bite. Do not attempt this during a convulsion					
	- Protects her from a fall or injury					
	- Empties her bladder using a catheter (preferably Foley's catheter), measure and record the volume, and leave the catheter in and attach to a urine collection bag					
	- Does not leave the woman alone					
	▪ Measures the BP, urine output and temperature of the woman					
	▪ Magnesium sulphate injection - Gives the first dose of magnesium sulphate injection:					
	- Takes a sterile 10 cc syringe and 22 gauge needle					
	- Breaks 5 ampoules and fill the syringe with the magnesium sulphate solution, ampoule by ampoule (10 ml in all). Take care not to suck in air bubbles while filling the syringe. (Each ampoule has 2 ml of magnesium sulphate 50% w/v, 1 g in 2 ml)					
	- Identifies the upper outer quadrant of the hip. Cleans it with a spirit swab and allows the area to dry					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
	- Administers the 10 ml (5 g) injection (deep intramuscular) in the upper outer quadrant in one buttock, slowly					
	- Tells the woman she will feel warm while the injection is being given					
	- Repeats the procedure with the same dose (i.e. 5 ampoules - 10 ml/ 5 g) in the other buttock					
	- Disposes of the syringe in a puncture proof container (if disposable) or decontaminates (if reusable)					
	▪ Starts an intravenous infusion and gives the intravenous fluids slowly, at the rate of 30 drops/minute and prepares for delivery (induces/augment labour as necessary)					
	<b>SCORE</b>					
5. The provider receives the pregnant woman in labor in a cordial manner	In the labor and delivery rooms, observe two women in labor and determine whether the provider:					
	▪ Ensures that she speaks the language understood by the woman or seeks someone who can assist in this regard					
	▪ Greets the woman and her companion in a cordial manner					
	▪ Introduces herself to the woman					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date	Date	Date	Date	
	<ul style="list-style-type: none"> <li>▪ Encourages the woman to ask her companion to remain at her side, as appropriate and applicable</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Responds to questions using easy-to-understand language</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Responds to her immediate needs (thirst, hunger, cold/hot, need to urinate, etc.)</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Records the necessary information in the individual labor record</li> </ul>					
	<b>SCORE</b>					
6. The provider uses the partograph to monitor labor and make adjustments to the birth plan	Determine, based on the clinical history and partograph of two women in labor, whether the provider:

# Performance Standards for GNM Schools of Nursing Section One

## Classroom and Practical Instruction

August 2011

# Performance Standards for GNM Schools of Nursing:

## Classroom and Practical Instruction

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_ Date: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
1. Nursing faculty have the required qualifications.	Verify through review of administrative records if:					
	<ul style="list-style-type: none"> <li>There is evidence that the GNM Principal has M.Sc. degree (with 3 years' experience in teaching), BSc degree with 5 years' teaching experience</li> </ul>					
	<ul style="list-style-type: none"> <li>All nursing faculty have evidence of B.Sc. Nursing or DNEA with 2 yrs professional experience, at least two nursing faculty have MCH/OB/Community/Pediatrics experience</li> </ul>					
	<ul style="list-style-type: none"> <li>Evidence exists of a total of two years of clinical practice experience within the past five years for each faculty member or 20% of time is spent in practice</li> </ul>					
	<ul style="list-style-type: none"> <li>If nursing faculty is newly graduated, they must work a minimum of 20% in clinical area</li> </ul>					
<ul style="list-style-type: none"> <li>Nursing faculty members who teach Midwifery have received at least one MCH/FP/Newborn related knowledge update in the past two years</li> </ul>						
2. Nursing faculty come to class prepared	Verify through direct observation or interview and teaching plans and materials review if the classroom Nursing faculty:					
	<ul style="list-style-type: none"> <li>Developed and distributed a course syllabus</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>▪ Developed and distributed a course calendar</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Has developed a lesson plan to guide teaching, including learning objectives</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Has prepared, or uses visual aids during the class</li> </ul>					
3. Nursing faculty are teaching according to the curriculum and related learning resource materials	During classroom instruction, observe whether the Nursing faculty:					
	<ul style="list-style-type: none"> <li>▪ Specifies which unit is being taught</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Mentions all the correct reference books that she has referred for preparing the lesson.</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Uses and mentions the learning resource materials for that unit</li> </ul>					
	Verify through review of the staff meeting minutes if the faculty <ul style="list-style-type: none"> <li>▪ Reviews academic calendar or course syllabus or schedule and compare to curriculum to determine consistency at least once a month</li> </ul>					
4. The nursing faculty uses effective session introduction and summary skills	Observe the nursing faculty during the session to verify that he/she:					
	<ul style="list-style-type: none"> <li>▪ Introduces session using an engaging technique</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ States objectives of the lesson as a part of introduction</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Presents effective summary: <ul style="list-style-type: none"> <li>— Draws the main points of presentation</li> <li>— Links to the next topic</li> </ul> </li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>Announces the student assignment for the topic just taught</li> </ul>					
5. The nursing faculty uses effective facilitation (teaching) skills	Observe the nursing faculty during the session to verify that he/she:					
	<ul style="list-style-type: none"> <li>Uses student's names often</li> </ul>					
	<ul style="list-style-type: none"> <li>Follows the notes or a teaching plan/ lesson plan</li> </ul>					
	<ul style="list-style-type: none"> <li>Maintains eye contact with the students</li> </ul>					
	<ul style="list-style-type: none"> <li>Projects their voice so that all students can hear</li> </ul>					
	<ul style="list-style-type: none"> <li>Maintains energy throughout the class</li> </ul>					
	<ul style="list-style-type: none"> <li>Uses audiovisuals effectively</li> </ul>					
	<ul style="list-style-type: none"> <li>Provides opportunities for application or practice of presentation content in the form of an activity or assignment</li> </ul>					
6. The nursing faculty uses effective questioning skills	Observe the nursing faculty during the session to verify that he/she:					
	<ul style="list-style-type: none"> <li>Asks questions to the entire group</li> </ul>					
	<ul style="list-style-type: none"> <li>Asks question to individuals</li> </ul>					
	<ul style="list-style-type: none"> <li>Asks questions at a variety of levels (recall, application, analysis)</li> </ul>					
	<ul style="list-style-type: none"> <li>Responds to students questions</li> </ul>					
	<ul style="list-style-type: none"> <li>Appreciates the student if the right answer is given</li> </ul>					
	<ul style="list-style-type: none"> <li>Asks probing questions or redirects the questions if the right answer is not obtained from the student</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
7. Nursing faculty plan and administer knowledge assessments properly. <sup>1</sup>	Review school records ( mark register, attendance register) to verify if:					
	<ul style="list-style-type: none"> <li>Summative knowledge assessments ( Council exam) were administered per INC Norms</li> </ul>					
	<ul style="list-style-type: none"> <li>Formative knowledge assessments ( internal exam and unit tests) are administered at once a month</li> </ul>					
	<ul style="list-style-type: none"> <li>Students are informed at least 1 week in advance of assessment</li> </ul>					
	Review an MCH/FP/Newborn related exam question paper to verify if:					
	<ul style="list-style-type: none"> <li>Questions related to learning objectives in modules were covered</li> </ul>					
	<ul style="list-style-type: none"> <li>Question bank exists as a Nursing faculty resource</li> </ul>					
	Verify through discussion or interview with at least two Nursing faculty, if:					
	<ul style="list-style-type: none"> <li>Knowledge assessment question papers are reviewed periodically to determine reliability, fairness, validity and adherence to the course objectives.</li> </ul>					
	<ul style="list-style-type: none"> <li>Student papers were graded/scored consistently using answer key</li> </ul>					
8. Knowledge assessment is a valid measurement tool	Verify by reviewing written examination papers of two batches:					
	<ul style="list-style-type: none"> <li>Whether the cover page of question paper contains all of the following (general instruction, number and type of questions, mark and time allotted)</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>▪ Whether the instructions for each section of questions is clear</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Whether the value or marks for each question are stated</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Questions assess at a variety of levels (not only recall, also application, analysis)</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Whether the papers include at least two of the following types of questions: <i>(tick each type of question that is used and fill in, if not, use n/a)</i></li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Multiple choice questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Have an easy to understand stem / question</li> </ul>					
	<ul style="list-style-type: none"> <li>— Distractors ( wrong answers) are realistic</li> </ul>					
	<ul style="list-style-type: none"> <li>— Use the negative construction not at all or rarely (&lt;10 % of the questions)</li> </ul>					
	<ul style="list-style-type: none"> <li>— Number of choices never exceeds five</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Short answer questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Are clear and easy to understand</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Matching questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Focus on one theme</li> </ul>					
	<ul style="list-style-type: none"> <li>— Basis for matching is indicated</li> </ul>					
	<ul style="list-style-type: none"> <li>— Not less than five and not more than 15 questions</li> </ul>					
	<ul style="list-style-type: none"> <li>— Listed on one page</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>▪ True false questions               <ul style="list-style-type: none"> <li>— Language clear, concise and understandable</li> <li>— Avoid words and expressions that frequently identify statements as true or false</li> <li>— Equivalent number of true and false statements</li> </ul> </li> <li>▪ Essays questions               <ul style="list-style-type: none"> <li>— Have objective scoring criteria</li> <li>— Are not overly broad, and focus the student on a specific area</li> </ul> </li> </ul>					
	Verify by reviewing the answer key for last year's examination of two batches that:					
	<ul style="list-style-type: none"> <li>▪ Answer key does not contain entire question ( or is coded),</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ System for linking answer key to test paper is clear</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ All question types have correct answers noted</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Multiple choice questions have a single correct answer noted</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Short answer questions have a clear answer or answers noted</li> </ul>					
<ul style="list-style-type: none"> <li>▪ Correct matching sequence of matching questions is noted</li> </ul>						
<ul style="list-style-type: none"> <li>▪ Points of correct answer for essay questions is noted</li> </ul>						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS	
		Date:	Date:	Date:	Date:		
10. Knowledge assessments reflect course content and priorities	Review course objectives and question papers of two maternal, reproductive health or newborn related written examinations:						
	<ul style="list-style-type: none"> <li>Ensure that priority cognitive course objectives related to maternal and newborn and reproductive health competencies are assessed in exams</li> </ul>						
11. Results of knowledge assessments and exams are recorded and reported properly	Verify through records ( mark register and answer sheets )and other documents review and by interviewing the classroom Nursing faculty, if:						
	<ul style="list-style-type: none"> <li>Exams are structured so that they can be scored blindly (without seeing the student's name). Only the roll number is written in the answer sheet</li> </ul>						
	<ul style="list-style-type: none"> <li>Assessment results are accurately recorded</li> </ul>						
	<ul style="list-style-type: none"> <li>Opportunities are offered for students to discuss the examination and scores with the Nursing faculty and view their graded papers under supervision</li> </ul>						
12. Nursing faculty use the skills learning lab (demonstration room) effectively for demonstrating clinical skills	Verify through observation or by interviewing the nursing faculty that:						
	Direct observation: Observe whether Nursing faculty introduce new skills by:						
	<ul style="list-style-type: none"> <li>Ensuring that all students have the necessary learning materials (e.g., supplies, models, checklists, etc.)</li> </ul>						
	<ul style="list-style-type: none"> <li>Describing the skill and why the skill is important</li> </ul>						
	<ul style="list-style-type: none"> <li>Describing steps involved in the skill, using the relevant checklist</li> </ul>						
	<ul style="list-style-type: none"> <li>Demonstrating the skill as follows:</li> </ul>						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	— Simulates clinical setting as much as possible					
	— Proceeds in a step-by-step manner					
	— Demonstrates skill accurately					
	— Demonstrates skill from beginning to end, without skipping steps					
	— Uses all the necessary supplies and equipment					
	— Demonstrates so that all students can see. Not more than 10 students observe a demonstration					
	— Ensures that each student follows using a checklist					
	— Summarizes and allows students to ask questions					
	Or Interview: Ask the Nursing faculty to explain to you step-by-step how s/he introduces new skills to the students using the learning lab:					
	▪ Ensures that all students follow using a checklist					
	▪ Describes the skill and why the skill is important					
	▪ Describes the steps involved in the skill, using the relevant learning guide					
	▪ Demonstrates so that all students can see					
	▪ Simulates clinical setting as much as possible					
	▪ Proceeds in a step-by-step manner					
	▪ Demonstrates skill accurately

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
15. Teaching and learning is routinely monitored for effectiveness at least two times per year	Through interviews with nursing faculty, students and by review of administrative records, verify that teaching is monitored for effectiveness:					
	There is an evaluation of nursing faculty performance on:					
	— Teaching skills					
	— Interpersonal and communication skills					
	— Review recorded on file					
	There are evaluations by students in following areas: (Note: these evaluations are not connected with faculty <i>promotion</i> )					
	— Relevance of teaching to course objectives					
	— Effectiveness of instruction					
	— Relevance of knowledge and skill assessments to course objectives on file					
	There is a review of students performance in:					
	— Knowledge					
	— Clinical assessments					

<sup>1</sup> Summative assessments are counted toward the final grade. Formative assessments do not count toward final grade (quiz, skill practice, case questions, etc.). Reliability—measuring achievement the same regardless of who the examiner is or which midwifery campus administers the assessment. Fairness—assessing teaching and learning that is happening with appropriate tools and in an unbiased manner (proper translation, no trick questions, graded blindly). Validity—measuring what you think you are measuring. Test questions should match the learning objectives.

# Performance Standards for GNM Schools of Nursing Section Two

## Clinical Instruction and Practice

August 2011

## Performance Standards for GNM Schools of Nursing: Clinical Instruction and Practice

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_ Date: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
1. The number of clinical practice sites meets requirements of the curriculum.	Determine by interviewing nursing faculty and visiting clinical practice sites whether:					
	<ul style="list-style-type: none"> <li>▪ The number of sites is sufficient so that no more than six students are practicing in a particular service delivery area during one shift</li> </ul>					
2. The variety of clinical sites meets the requirements of the curriculum.	Determine by interviewing school administrator and nursing faculty/tutors and reviewing administrative records whether:					
	<ul style="list-style-type: none"> <li>▪ Clinical practice sites are available for:               <ul style="list-style-type: none"> <li>— Antenatal care</li> <li>— Labor/assessment of patients presenting with signs of labor</li> <li>— Delivery and the management of delivery complications</li> <li>— Newborn care and management of newborn problems</li> <li>— Postpartum care</li> <li>— Management of obstetric emergencies</li> <li>— Family planning</li> <li>— General gynecologic care</li> </ul> </li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<p>Clinical practice sites represent the variety of types of facilities where graduates can be expected to work including:</p> <ul style="list-style-type: none"> <li>— A hospital or First Referral Unit (FRU)</li> <li>— 24/7 Primary Health Center or CHC</li> <li>— Sub-center or MCH clinics</li> </ul>					
3. The infrastructure of the clinical practice area is conducive to clinical practice	Observe in the clinical practice site whether the place:					
	<ul style="list-style-type: none"> <li>▪ Has sufficient space in each clinical area to accommodate four to six students working alongside staff</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Has space where preceptors and students can meet to review objectives and discuss practice</li> </ul>					
4. Clinical volume and practice provides students with sufficient practice to meet clinical objectives	Determine by reviewing statistical records whether there is sufficient clinical volume:					
	<ul style="list-style-type: none"> <li>▪ Total volume is at least 20 -competent   deliveries per student</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ 30 antenatal examinations provided</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ 20 postpartum care of woman and newborn</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Five vaginal obstetric examinations</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Five IUD insertions</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Five neonatal resuscitations</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Five indicated episiotomy and repairs</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS	
		Date:	Date:	Date:	Date:		
5. The school has an agreement with the clinical practice sites and community area that allows students' learning.	Verify with the school administrator if:						
	<ul style="list-style-type: none"> <li>▪ There is a permission letter between the school and the local health authorities (hospitals and health center) that states that each clinical practice site has a policy that allows students to directly participate in supervised clinical care of patients</li> </ul>						
	There is an agreement with each of the following types of facilities:						
	— District Hospital						
	— First Referral Unit/Community Health Center						
	— Primary Health Care Center						
	— Sub centre						
6. The clinical and community practice sites are prepared for student teaching	Verify by interviewing clinical practice site coordinator/supervisor and reviewing records whether:						
	<ul style="list-style-type: none"> <li>▪ Clinical practice facilities have been assessed prior to student placement</li> </ul>						
	<ul style="list-style-type: none"> <li>▪ Principal or faculty and hospital personnel meet regularly to discuss issues related to clinical practice of students</li> </ul>						
	<ul style="list-style-type: none"> <li>▪ The clinical staff are aware of the learning objectives for clinical practice blocks</li> </ul>						
7. Clinical rotation plans have been developed to distribute students	Verify with clinical preceptors if:						
	<ul style="list-style-type: none"> <li>▪ CRP for each class of students exists and has been shared with all the clinical practice sites</li> </ul>						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
across clinical practice areas evenly	<ul style="list-style-type: none"> <li>Clinical rotation plan (CRP) ensures that groups of students (e.g., from different classes) are not assigned to same unit at the same time</li> </ul>					
	<ul style="list-style-type: none"> <li>CRP identifies nursing faculty responsible for each block of time a student group is in a unit</li> </ul>					
	<ul style="list-style-type: none"> <li>CRP is organized so that students complete a study block covering relevant theory content before practicing in the clinic</li> </ul>					
	<ul style="list-style-type: none"> <li>CRP ensures that clinical experience of the students are planned as per the curriculum requirement and not based on the hospital requirement</li> </ul>					
8. Transportation to and from clinical and community practice sites is assured	Verify with the school administration, students and nursing faculty whether:					
	<ul style="list-style-type: none"> <li>Transportation has been arranged</li> </ul>					
	<ul style="list-style-type: none"> <li>Transportation ensures students arrive on time</li> </ul>					
	<ul style="list-style-type: none"> <li>Nursing faculty accompany students to clinical practice</li> </ul>					
9. Nursing faculty/tutors have the necessary teaching materials to effectively guide students in clinical and community practice	Verify with the nursing faculty/tutors if:					
	<ul style="list-style-type: none"> <li>There is a set of learning resource/teaching materials (learning guides/checklists, job aids, etc.) at the clinical site</li> </ul>					
	<ul style="list-style-type: none"> <li>There are learning objectives for skills practice and they are provided to the students at the beginning of the course</li> </ul>

## Performance Standards for GNM School of Nursing: School Infrastructure and Training Material

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_ Date: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
1. The school has the basic infrastructure to function effectively	Observe that the school has:					
	▪ GNM school: four functional classrooms– each at least 1080 sq ft					
	▪ Learning/skills laboratory ( demonstration room)					
	▪ Library facility					
	▪ Administrative space, office room					
	▪ Principals room and tutors room					
	▪ Areas for students to gather for eating and socializing					
	▪ Toilet facilities separate for faculty and staff (1:10 ratio)					
	▪ Toilet facilities for students					
	▪ Photocopy machine					
	▪ Computer in office					
	▪ Printer					
	▪ Phone					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
2. The school facilities are clean	Visit the school facilities to observe the absence of dust, soil, trash, insects, and spider webs in the following areas:					
	▪ Classrooms					
	▪ Learning/skills laboratory ( demonstration room)					
	▪ Library					
	▪ Administrative space, offices					
	▪ Areas for students to gather for eating and socializing					
	▪ Toilet facilities					
	▪ Photocopy machine area					
3. Classrooms are comfortable and properly equipped for teaching	Observe if the classrooms have:					
	▪ Adequate light, either natural or electrical					
	▪ Adequate ventilation (open windows or fan, cooler, fans)					
	▪ Chairs in sufficient numbers for the largest class size					
	▪ Desks in sufficient numbers for the largest class size					
	▪ Adequate and flexible space for group learning activities					
	▪ Blackboard or whiteboard and means to erase it					
	▪ Chalk or whiteboard markers					
▪ Source of electricity (plug point)						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	▪ Overhead projector with voltage stabilizer or projection unit					
	▪ Clock					
	▪ Flipchart and tripod (as needed)					
	▪ Notice board					
	▪ Waste bin					
4. The learning lab is properly equipped for practical learning sessions	Observe that learning/skills labs have:					
	▪ Adequate light, either natural or electrical					
	▪ Adequate ventilation (open windows, air conditioner, fans)					
	▪ Tables to place models					
	▪ Seating is available					
	▪ Blackboard or whiteboard					
	▪ Chalk or whiteboard markers					
	▪ Cabinets with locks for supplies and drugs					
	Anatomic models:					
	— Childbirth simulator					
	— Episiotomy suturing model					
	— Zoë model with different size attachments (for teaching pelvic exam, cervical inspection and interval IUCD insertion)

## School Management

August 2011

## Performance Standards for GNM Schools of Nursing: School Management

School (name and place): \_\_\_\_\_ Supervisor/Assessor: \_\_\_\_\_ Date: \_\_\_\_\_

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
1. Student composition reflects national INC policies for nurse-midwifery education.	Verify in the registry with record of student data if:					
	<ul style="list-style-type: none"> <li>▪ Students are 17 to 35 years</li> </ul>					
	Each student has passed an entrance exam equivalent:					
	<ul style="list-style-type: none"> <li>▪ GNM equivalent 10 +2 years of education, preferably with science</li> </ul>					
2. Class size is consistent with national INC policy and local capacity.	Through review of school records, verify that the class size follows INC norms/recommendations and does not exceed:					
	<ul style="list-style-type: none"> <li>▪ Teacher-to-student ratio is as per INC norms</li> </ul>					
	— 1:10 in clinical area					
	— Theory: 1:60					
	— Small group/practical: 1:12					
	— Student patient ratio in the clinical area is : 1:4					
	There is an adequate number of classrooms that accommodate all students in physical space of campus					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS	
		Date:	Date:	Date:	Date:		
3. School has developed and implemented effective student recruitment and admission strategies according to national student admission policy	Through interview administrative staff and document review that:						
	▪ School has a policy that follows the state recruitment strategy						
	▪ School has a copy of INC student admission policy						
	▪ School representatives are a part of the state recruitment process specific for their school						
	▪ School has a selection committee						
	▪ School admission criteria is in line with INC requirements						
4. A record of students from entrance to exit is maintained	Verify by document review( cumulative record) that:						
	▪ Documentation exists to track students from entrance to exit						
5. School academic policies exist and are applied	Verify through interview with the administration and review of records whether:						
	▪ Written school academic policies are present and if they include the following topics						
	— Attendance of students in clinic and classroom						
	— Dress code (specifically for clinical areas)						
	— Professional conduct in class, clinical areas, and on campus						
	— Disciplinary action procedures (probation, suspension, expulsion)						
	Randomly interview two faculty and two students to verify whether:

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
1. The provider asks about and records warning signs that the woman may have or has had.	Verify whether the provider determines if the woman has had any warning signs during her pregnancy:					
	▪ Vaginal bleeding					
	▪ Leaking Per vaginum					
	▪ Respiratory difficulty					
	▪ Fever, pain in the abdomen / foul smelling discharge					
	▪ Severe headache/blurred vision					
	▪ Generalized swelling of the body, puffiness of face and pallor					
	▪ Severe abdominal pain					
	▪ Convulsions/loss of consciousness					
	▪ Decrease, excessive or absence of foetal movements					
	▪ Assures immediate attention in the event of any of the above symptoms

		Date:	Date:	Date:	Date:	
2. The provider ensures that all women and their husbands/ companions have individual birth plan and are prepared for any complication that may arise	Observe during a visit with a woman in her second or third trimester, that the provider helps the client and her husband/partner develop an individual birth plan (IBP) and complication readiness or verify by interview with a women in her third trimester if she is aware of the following.					
	<ul style="list-style-type: none"> <li>▪ Explains the benefits of giving birth assisted by a skilled provider who knows how to manage complications</li> </ul>					
	Develops a birth plan with the woman, including all preparations for normal birth and plan in case of emergency:					
	<ul style="list-style-type: none"> <li>▪ Skilled provider and place of birth</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Signs and symptoms of labor and when she has to go to the hospital</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Emergency transportation and funds</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Provider asks her to identify a family member(s) as a blood donor</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Advises the woman and her family to keep a small amount of money for emergency</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Items to be taken to the health care setting for clean and safe birth</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Decision-making person in case complication occurs at home</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Warning signs and symptoms</li> </ul>					
	<ul style="list-style-type: none"> <li>- Vaginal bleeding</li> </ul>					
	<ul style="list-style-type: none"> <li>- Leaking PV</li> </ul>					
<ul style="list-style-type: none"> <li>- Respiratory difficulty</li> </ul>

	- Severe abdominal pain					
	- Convulsions/loss of consciousness					
	- Decrease, excessive or absence of foetal movements					
3. The provider uses recommended general counseling techniques while counseling clients in their area of concern	Observe the counseling/examination area with client and verify if the provider:					
	▪ Shows client respect, and helps her feel at ease					
	▪ Provides adequate privacy					
	▪ Encourages the client to explain needs, express concerns and ask questions					
	▪ Allows the client's wishes and needs guide the discussion					
	▪ Includes client's husband or important family members for the counseling session with permission of the client					
	▪ Ensures that there is adequate privacy during the counseling session.					
	▪ Listens carefully					
▪ Provides only key information and instructions. Uses words the client can understand.

		Date:	Date:	Date:	Date:	
5. The provider uses the partograph to monitor labor and make adjustments to the birth plan	Determine, based on the clinical history and partograph of two women in labor, whether the provider:					
	▪ Records patient information:					
	- Name					
	- Gravida, para					
	- Hospital number					
	- Date and time of admission					
	- Time of rupture of membranes					
	▪ Records every half hour:					
	- Fetal heart rate (FHR)					
	- Uterine contractions (frequency and duration over a 10-minute period)					
	- Maternal pulse					
	- Amount of IV solution( If provided with oxytocin in drops per minute and indication) medications and other intravenous liquids, if used					
	▪ Records temperature every two hours					
	▪ Records BP every 4 hours					
	▪ At every vaginal examination (every 4 hours or less according to evolution of labor):					
	- Records the condition of the membranes and characteristics of the amniotic fluid					
	- Graphs the degree of molding of the head					
- Graphs cervical dilation						

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
	<ul style="list-style-type: none"> <li>- Graphs the descent of the head or buttocks</li> <li>▪ Records the amount of urine every time the woman urinates</li> <li>▪ Records the time of the observations</li> <li>▪ Adjusts the labor plan according to the parameters encountered:               <ul style="list-style-type: none"> <li>- If parameters are normal, continues to implement the plan (walk about freely, hydration, light food if desired, change positions, etc.) OR</li> <li>- If parameters are not normal, identifies complications, records the diagnosis and makes adjustments to the birth plan</li> </ul> </li> </ul>					
6. The provider has the basic equipments to perform resuscitation of the newborn	Determine whether the provider has assembled:					
	▪ Masks (#1 and #0) 0 for pre term, 1 for term healthy baby					
	▪ Newborn self inflating resuscitation bag					
	▪ Suction bulb or catheter					
	▪ Oxygen source if available					
7. The provider verifies that equipment is in proper working condition.	Verify if the provider:					
	▪ Checks bag and mask blocking the mask by making a tight seal with the palm of his hand and squeezing the bag.					
	▪ Checks that she/he feels pressure against his hand (which means that the bag is generating adequate pressure)

other for the newborn.	<ul style="list-style-type: none"> <li>▪ Informs the mother of the baby's condition</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Clamps and cuts the cord using sterile instruments as soon as the cord has stopped pulsating</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Places an identification bracelet on the baby</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ If necessary, provides orientation to the mother about how to hold her baby</li> </ul>					
10. The provider adequately performs immediate postpartum care	In the labor or delivery rooms, observe two women during a delivery and determine whether the provider:					
	<ul style="list-style-type: none"> <li>▪ Informs the woman what he/she is going to do before proceeding, then <i>carefully</i> examines the vagina and perineum</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Checks for PPH</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Gently cleanses the vulva and perineum with clean water (warm if possible) or a nonalcoholic antiseptic solution</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Sutures tears if necessary</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Covers the perineum with a clean sanitary pad</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Makes sure that the woman is comfortable (clean, hydrated and warmly covered)</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Ensures that the baby is well covered, is with the mother, and has begun to suckle</li> </ul>					

PERFORMANCE STANDARDS	VERIFICATION CRITERIA	Baseline	1 <sup>st</sup> Assessment	2 <sup>nd</sup> Assessment	3 <sup>rd</sup> Assessment	COMMENTS
		Date:	Date:	Date:	Date:	
11. The provider properly monitors the newborn	Observe whether the provider:					
	<ul style="list-style-type: none"> <li>▪ Monitors baby's temperature every 30 minutes, by touching the baby's peripheries, chest &amp; abdomen.               <ul style="list-style-type: none"> <li>- If cold, takes axillary temperature and makes sure that the baby is kept warm by maintaining skin-to-skin contact (if that's not possible, re-wrap the baby, including the head) and place the baby under a heat source or incubator. Continues to monitor temperature on an hourly basis or until temperature stabilizes</li> </ul> </li> </ul>					
	<ul style="list-style-type: none"> <li>▪ If there is bleeding from the cord, reties it if necessary</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Gives the baby vitamin K injection 1 mg IM.</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Applies antimicrobial drops or ophthalmic solution in both the eyes of the baby within first hour of life when indicated</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Encourages and supports the mother in initiating breastfeeding within the first hour after birth</li> </ul>					
12. The provider properly performs resuscitation of the newborn	Determine whether the provider:					
	<ul style="list-style-type: none"> <li>▪ Places the newborn face up on a clean, dry, hard surface under a heat source or warmer.</li> </ul>					
	<ul style="list-style-type: none"> <li>▪ Quickly wraps and covers the baby, except for the face and the upper portion of the chest.</li> </ul>

**ANNEXURE 2:  
SPECIFICATIONS OF MANNEQUINS AND EQUIPMENT'S FOR SKILLS LAB**

**Specifications of Mannequins and Equipments for Skill Lab**

General specifications desired for all Mannequins:

The color of the mannequin should be in Caucasian simulating Indian babies/adult in medium skin tones.

The material of the mannequin should be of polyvinyl and silicone rubber free from any carcinogenic agents.

The texture of the mannequin should be soft and smooth and close to the feel of baby/adult skin as relevant. The texture must be friction free to demonstrate the desired procedure

The internal parts of mannequin must be realistically sculpted, anatomically accurate and feel must be smooth/resilient/bony as relevant and suitable for simulation

The mannequins must be portable and any fittings used in mannequins must be of aluminum or polycarbonate or equivalent

The mannequin's durability must be of minimum 2 years.

The material of the mannequin should withstand extremes of temperature (upto 45 degree Celsius)

The supplier must ensure manufacturer's warranty/guarantee against for the specifications and also manufacturing defects.

The manufacturing units must have an internal system of quality control and supplier should produce the process and certificate from the manufacturers.

The supplier will be responsible for service, maintenance, replacement, etc. against any complaints up to the satisfactions of the users irrespective of the location of manufacturing unit.

The Lead time must not be more than 6 weeks after confirmation of written supply order

The supplier must ensure the availability of on- call service agent from state headquarters within 48 hours, from local within 24 hours, from outside state within 7 days and incase the problem is not rectified on site at the time of service then its need to be rectified with in next 7 days for minor defects and within 28 days for major defects.

*Handwritten signatures and initials:*  
Dipen Agrawal, Bilal Sood, Hrishabh, Manisha, Ashu, Anshu, P.P.T, Anshu, Chaitan, Kishu, Akhya, Anshu, P.P.T, Anshu

The warranty for mannequins must be two years from the date of receiving at consignees address.

All mannequins should include a soft/Hard Carrying Case and study questions, Dos and Dont's, instructions manual, maintenance guide, , background information, videotape for demonstrating the use of mannequin, User manual with trouble shooting guidance, technical manual with maintenance and first line technical intervention instructions and any other relevant teaching/ training materials in English

The mannequins should have additional accessories as listed and also talcum powder or silicone gel to avoid friction, list of accessories and spare parts with cost and contact details of its supplier preferably within State/Delhi.

The supplier/manufacture should list the name and address of technical service providers in India.

The payment of the mannequin is linked with installation at consignee address, demonstration to service providers at consignee address and certification of installation and functionality by the head of the concerned department.

The suppliers should agree for 10% of payment to be released after 2 years (Warranty Period)

General specifications desired for all equipment's:

The material used for equipment's should be of rust proof, high quality PVC/stainless steel/polyvinyl and silicone rubber as applicable and free from any carcinogenic agents

The stainless steel composition must be of 8 to 10% nickel, 18 to 20% chromium.

The fittings of all equipment's must be of stainless steel/aluminum.

The equipment's should be durable of minimum 3 years for repeated use by trainers/trainees.

The supplier must ensure manufacturer's warranty/guarantee against for the specifications and also manufacturing defects.

Every manufacturing unit must have an internal system of quality control and supplier should produce the process and certificate from the manufacturers

The supplier will be responsible for service, maintenance, replacement, etc. against any complaints up to the satisfactions of the users irrespective of the location of manufacturing unit.

### 1. HAND HELD UTERUS MANNEQUIN

- Hand held uterus model should show coronal section of uterus, ovaries and fimbriae
- Hand held uterus model should have a clear plastic window permitting easy view of IUD
- Hand held uterus model should permit easy demo of inserting and removing of IUD
- Hand held uterus model should be Made of PVC

### 2. FEMALE LOWER TORSO MANNEQUIN WITH NORMAL AND POSTPARTUM UTERUS AND ACCESSORIES

- Should have full size adult female lower torso (abdomen and pelvis) with relevant internal landmarks
- Should have palpable normal and pregnant uteri with Realistically sculpted and anatomically accurate ovaries and fimbriae
- Should have accessories to enhance visual recognition of normal and abnormal cervixes
- Should have removable introits
- Should have "screw" design between Uterus and Cervix for fast and easy change-out
- Should be suitable for teaching/practicing bi-manual pelvic examination
- Should be suitable for vaginal examination, including insertion of speculum, uterine sounding and IUD insertion and removal
- Should have distal end of vagina to facilitate introduction of a female condom
- Should have features to demonstrate Minilaparotomy (both interval and postpartum tubal occlusion), Manual vacuum aspiration (MVA), visual recognition of normal and abnormal cervixes, 48 hours postpartum fundal massage
- Additional Accessories:
  - One anteverted uterus
  - One retroverted parous uterus
  - Five normal cervixes
  - Four abnormal cervixes
  - Ten fallopian tubes
  - 2 x 48 hour postpartum uterus with 'duckbill' cervix and fallopian tubes
  - 2 Extra locking pins and thin cervical locking ring

### Theme 4: Intranatal care

#### Skill Station:

1. Pelvic examination includes cervical dilatation and pelvic assessment
2. Normal Delivery
3. AMTSL & Checking placenta
4. initial dose of MgSO<sub>4</sub> for severe pre-eclampsia/eclampsia management..yet to decide of having models

*Dipen Agard* *Bulbul Saad* *Ms. Khan*

*Shc* *Shc* *Shc*  
*Manushi Mishra* *Shc* *Shc*  
*Shc* *Shc* *Shc*  
*Shc* *Shc* *Shc*

5. Episiotomy repair
6. Initial Management of atonic PPH
7. Complicated delivery ( Twin , breech, shoulder dystosia, ventose and Forceps)

1. CHILD BIRTH SIMULATOR ALONG WITH ATTACHMENT FOR CERVICAL DILATATION ( CLOSED OS,4 CM, 6CM, 8CM, FULLY DILATED CERVIX)

Features:

- Should have hemi pelvis of adult female with anatomical landmarks like pelvic cavity, spine etc. Should have manual mechanical birthing system to enable the user to control the rotation and speed of fetus delivery etc.
- Should have articulating fetal baby with adaptors to fit with manual birthing system
- Should be versatile to change the position of the fetus during the process of birth including descend, flexion, extension, internal and external rotation, restitution.
- Should have features for training normal and breech deliveries
- Should have Inflatable cushions to lift fetus for Leopold maneuver during pregnancy
- Shall have adaptive birth canal to demonstrate dystocia and deal with its relief
- Should have features to demonstrate cord prolapse
- Shall allow demonstration and practice of placenta previa
- Should have cervical dilatation attachment for closed Os, 4cm, 6cm, 8cm and fully dilated cervix
- Should have features simulating represent conditions of the cervix and vagina prior to labor, during labor and at birth in a primigravid woman
- Additional Accessories :
  - One detachable padded stomach cover
  - Detachable Manual mechanical birthing system with mounting flange
  - One fully articulating fetal baby with adaptors to fit with manual birthing system
  - One elevating cushion for Leopold maneuvers
  - 6 detachable dilating cervices
  - 6 detachable Vulva
  - 9 vulvar inserts
  - 6 placentas
  - 9 umbilical cords
  - One 48 hour postpartum uterine activity assembly
  - One postpartum perineal insert
  - Reusable episiotomy repair module (set of 3 including medial tears, mediolateral tears and standard mediolateral episiotomy)
  - 2 sets cervical dilatation attachment for closed Os, 4cm, 6cm, 8cm and fully dilated cervix .

2. POSTPARTUM SUTURING TRAINER

- Should enable use of standard needle holder with "00" or "000" chromic sutures

- ❖ Intramuscular injection training mannequin should have Intramuscular injection in ventrogluteal site below iliac crest on both side(left and right)
- ❖ Intramuscular injection training mannequin should have Intramuscular injection in lateral thigh at any one side

#### Theme 5: Complication Management

##### Skill Station:

1. BCA approach
2. Management of Shock (IV catheterization and Urinary catheterization)

#### 1. ADULT CPR MANNEQUIN

- ❖ Adult CPR mannequin should have features to demonstrate opening of airway, head tilt/chin lift and/or jaw thrust techniques.
- ❖ Adult CPR mannequin should have disposable airways
- ❖ Adult CPR mannequin should have removable, reusable faces
- ❖ Adult CPR mannequin should have a "clicker" which confirms correct compression depth
- ❖ Adult CPR mannequin should have compression spring for consistent resistance
- ❖ Adult CPR mannequin Should have weight: 3.9 kg and H x W x D: 25 in x 8.5 in x 13.5 in
- ❖ Additional Accessories:
  - 6 Reusable manikin Faces
  - 6 Airways
  - 50 Manikin Wipes

#### 2. ADULT IV TRAINING ARM KIT

- ❖ Adult IV training arm should have full adult arm with simulated clenched fist and tournique position
- ❖ Adult IV training arm should be suitable for practicing IV injections
- ❖ Adult IV training arm should have prominent venous network
- ❖ Adult IV training arm should have anatomically located venous grooves, fitted with soft latex tubes, closely simulating consistency of human veins
- ❖ Adult IV training arm must have a pliable translucent latex skin stretched over venous network
- ❖ Adult IV training arm should have Simulated cephalic, basic, antecubital, radial, and ulnar veins
- ❖ Adult IV training arm should have veins in dorsum of hand
- ❖ Adult IV training arm should feature Realistic "pop" as needle enters vein
- ❖ Adult IV training arm must have a smoked Lucite base with metal stand
- ❖ Adult IV training arm veins and skin must be replaceable

Sera

- Should have housing and Base: MS Powder coated cabinet with Stainless Steel top.
- Should be mounted on bearing castor wheels with brakes, completed with pressure regulator ½ H.P motor.
- Should have capacity: 0-700 mm Hg ± 10 regulatable, flutter free vacuum control knob (pressure regulator), 25 Ltrs / min.
- Should have Single rotary vane pump or other equivalent pump
- Should have wide mouthed 2 x 2 Liter jar (Polycarbonate) with self-sealing bungs and mechanical over flow safety device.  
Should have 8 mm ID x 2 meter tubing ( non-collapsible tube with adaptors - PVC)
- Should have bourden type 6.5cm Diameter, 0-760 mm Hg calibration Vacuum Gauge.
- Power should be 230 V, 50 Hz, 2 ± 0.5 Amps, 200 watts. (110 V on request)
- Should have Noise Level: 50 dB A ± 3 Almost whispers.
- Should have 43 x 30 x 68 cms Dimension and Weight of 27Kgs
- Should have safety certification according CE 93/42, FDA 510k or equivalent

#### 6. FOOT-OPERATED SUCTION MACHINE

- Should have High performance suction pump for pharyngeal and tracheal suction
- Should have double acting piston pump provides a combination of large airflow and high vacuum
- Should have see-saw movement of pedal that generates suction every time, one side of the pedal is depressed
- Should have pump chassis complete with valve diaphragms, manifold pipe, bottom cover, cylinder with draw link and valve diaphragm, piston O-ring, pedal with retaining springs, aspirating tube with angle connector and combination suction tip
- Should have pump which is totally disassembled, is easy to clean and disinfect
- All parts should be autoclaved at 121°C
- Should have Vacuum maximum of 600 mmHg
- Should have free airflow at two pumping strokes per second, approximately 30 to 40 L/min.
- All the parts should be made of high-strength, long-life materials, not requiring specific maintenance or storage
- Should have transparent polycarbonate collection container capacity, approximately 1 Liter
- Should have thermoplastic rubber Bottom cover
- Manifold pipe: polypropylene Gasket, O-rings and valve diaphragm: silicone rubber
- Should have Teflon piston rings
- Should have aluminum foot pedal

#### Additional Accessories:

- 3 set of silicone rubber suction tubing, approx: diam. 10 mm, length 1.5 m
- 3 angle connector and combination acetal suction tip

*18/8/2014*

*Arshad Raza*  
*P. P. 16*

- 2 spare valve diaphragms
- 2 spare piston O-ring
- 2 spare retaining springs,

#### 7. PEDIATRIC IV ARM KIT

- Should have pediatric arm
- Should have replacement Skin and multi-vein system
- Should have simulated Blood pack
- Should have blood Bag with tubing and connector
- Should have clamp and hook
- Should have 5 Syringes
- Should have Manikin Lubricant

#### Additional Accessories:

- 5 – replacement skin
- 5 – multi – vein system
- 3- simulated blood pack
- 3 – blood bag with tubing and connector
- 3- lubricant

#### 8. NG TUBE INSERTION MANNEQUIN:

- Should look like 0-8 weeks old and Caucasian colour ( Dr, Anand- for age )
- Should have soft and flexible and replaceable face skin and upper body skin
- Should offer NG exercises to demonstrate tube feeding and gastric suction
- Placing NP/OP tubes must be possible
- Should have landmark for ear canal
- Should have removable internal

#### 9. PHOTOTHERAPY UNIT:

- Should have heavy sturdy mobile stand phototherapy unit
- Should have four Antistatic castors, 2 with breaks
- Should have single head with surface size approximately: 0.50 x 0.75 m
- Should have head height adjustable approximately 1.40 to 1.75 m
- Should have blue light with 4 Compact Fluorescence Tubes (CFL) approximately: 20 W
- Should have white light with 2 Compact Fluorescence Tubes (CFL) approximately: 20 W
- Should have grills to protect the tubes

*W. Ghosh*

*Dr. Anand*  
*Bulb*  
*15*  
*Manisha*  
*Amisha*  
*Abhishek*

11. Oxygen Administration (Oxygen Concentrator)

- Oxygen concentrator to provide oxygen from atmospheric air
- Oxygen concentration measured at the flow meter by oxygen sensing device (OSD)
- Sound level <15 dB
- Superior grade of molecular sieve with an indicator / sensor on the device indicating whether the sieve is functional or non-functional
- Maintenance free rotary proppet valve.
- Oxygen purity approximately 90%,
- Oxygen output approximately: 0 - 5 LPM,
- Pressure approximately: 8 psi
- Double outlet or flow splitter for oxygen Delivery
- Oxygen tube of 2 m length must be provided with facility for nebulization with tube & mask With two humidifier bottles and two cabinet filters
- Power requirements: 220 V/50 Hz
- Power consumption: 450 W
- Device is safety certified according CE 93/42, FDA 510k or equivalent

Additional Accessories:

- 3 spare set of tubing
- 3 spare set of internal and external filters (bacterial);
- 10 spare set of fuses

12. Oxygen Administration (Oxygen Hood)

- Should have round shape 3 - Medium size, approximately height 22 cm, diameter 25 cm, 3 small size , approximately: height 18 cm, diameter 20 cm
- Should be autoclavable polycarbonate
- Should be free from trauma of silicon neck, with adjustment flap
- Should have bilateral oxygen nozzle,
- Should have oxygen tube of 2 m length with one spare set of tubing
- Should have port for oxygen sensor
- Device is safety certified according CE 93/42, FDA 510k or equivalent

*18/8/2018*

13. Nebulizer

- Should be easy to use and clean
- Should deliver inhaled steroids, antibiotics and all commonly prescribed bronchodilators

*995*  
*996*  
*997*  
*998*  
*999*  
*1000*

All the experts agreed on different skill stations, specifications of the mannequins, equipments and the decisions taken for operationalizing the skill stations as per the minutes enclosed..

  
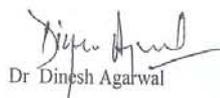

Dr. J.K. Das

  
Dr Himanshu Bhushan

  
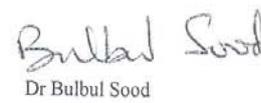

Dr. S.K. Sikdar

  
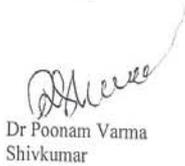

Dr Manisha Mallotra

  
Dr. Ritu Agrawal

  
Dr Dinesh Agarwal

  
Dr. Archana Mishra

  
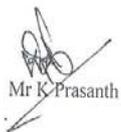

Dr Bulbul Sood

  
Dr Poonam Varma  
Shivkumar

  
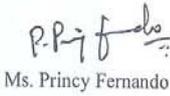

Dr Anand Rai

  
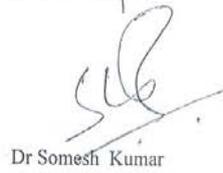

Dr Aboli Gore

  
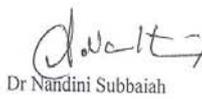

Dr Paul Francis

  
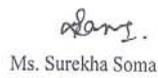

Mr K. Prasanth

  
Dr. Utsuk Dutta

  
Ms. Princy Fernando

  
Dr Somesh Kumar

  
Dr Nandini Subbaiah

  
Ms. Surekha Soma

  
Dr..Manju Chuggani

**ANNEXURE 3:**  
**LIST OF SKILL STATIONS (See GOI guidelines on Skill Lab for the final list)**

*Basic Skills:*

Skill station	Type of Skill	Teaching/ Training Aid Skill Practice will be at every skill station.	Type of Mannequin required
ANC	Calculation of EDD	<ul style="list-style-type: none"> <li>Power point presentation</li> </ul>	
	Recording BP and weight	<ul style="list-style-type: none"> <li>Power point presentation</li> <li>Video</li> </ul>	
	Abdominal examination and auscultating Foetal Heart Sounds (FHS)	<ul style="list-style-type: none"> <li>Power point presentation</li> <li>Video</li> <li>Skill Practice on Mannequin</li> </ul>	1.Human fetus replicas 2.Abdominal Palpation mannequin for Leopold manoeuvres during pregnancy 3.Dictaphone

## TOR / Job Description for the Nursing and Midwifery Tutor

**Title:** Nursing-Midwifery Tutor

**Duty Station:** National/State Nodal Center at various locations

### Summary Job Description

The nursing and midwifery educator will ensure timely provision of training and assistance in building the capacities of the faculty and service providers of their nodal center and the ANM/GNM faculty in the specified region. The educator will support the National/State Nodal Center and the specified GNM Schools and ANMTCs by conducting the trainings of the faculty of the ANMTCs and GNM schools of the assigned states and undertaking mentoring visits to these ANMTCs and GNM Schools to provide technical support for strengthening the educational and infrastructural processes at these institutions. This position requires midwifery education, experience and technical expertise in SBA, FP and/or Child Health, strong coordination skills and ability to develop positive, professional working relationships with various counterparts. Within the nodal center, primary working relationships include the principal, of the respective college of nursing, regular faculty of the college of nursing, administrators and providers of the clinical practice site, trainees and other personnel involved in this initiative for strengthening PSE (pre-service education) for nursing midwifery cadre. The educator will provide the necessary technical assistance and support program management for this program in the country.

### Reporting Structure

- **Position is Supervised by:** The Principal, College of Nursing/ Nodal Center
- **Position Reports to:** The Principal, College of Nursing/ Nodal Center

**Salary (not to be advertised):** Rs. 60,000 -70,000 per month (depending on experience).

### Responsibilities

#### Technical and Training responsibilities:

- Update the faculty and clinical service providers from the college of nursing and its clinical practice site, functioning as the National/State nodal center, on the Government of India protocols for Reproductive, Maternal, Newborn and Child Health (RMNCH).
- Facilitate the adherence to **clinical practices** in accordance with standard national protocols for RMNCH and Indian Nursing Council (INC) approved clinical standards at the clinical practice sites of the nodal center and monitoring the sustenance of these clinical practices/standards.
- Facilitate the quality improvement of the **educational and evaluation processes** at the respective college of nursing through the implementation of the educational standards and monitoring their sustenance.
- Conduct the training of the master trainers from the other nodal centers in the INC approved 10 day training module for subsequent trainings of the ANMTC/GNM school faculty.
- Conduct the training for the ANM/GNM faculty in clinical and teaching skills at the nodal center, using the INC approved six-week curriculum.

- Undertake mentoring visits at the assigned ANMTCs and GNM Schools of the respective states, for supporting the trained faculty in post training transfer of knowledge and skills to the students at the GNM Schools/ ANMTCs.
- During these mentoring visits, facilitate the implementation of the quality improvement process at the GNM Schools/ ANMTCs and their linked clinical practice site by assisting the implementation of the performance standards.
- During these mentoring visits Support the faculty in the establishment of skills lab, library and other educational infrastructure at the GNM Schools/ ANMTCs.
- Provide strong and innovative technical leadership and set priorities for all assigned duties, as well as coordinate with other stakeholders-MOHFW, NIHFW, INC and Development partners, for responsive technical support.
- Keep the MOHFW, NIHFW, INC, respective Development partners and state governments informed of successes, challenges and lessons learned.
- Work to keep up to date on technical programmatic priorities and approaches through self-study and liaising with technical staff in the NNC and INC.

### **Management**

- Work in close coordination with state governments / state nursing cell/directorate in implementation of the state specific road map for strengthening nursing-midwifery education, particularly its technical aspects.
- Regularly report on state specific training plans in advance for the upcoming year and also the quarterly activities and achievements.
- Monitor the trainings in the state nodal center (applicable for tutors at national nodal center) and reporting on the same and other indicators of the M&E frameworks.
- Travel to ANMTCs of the assigned states for supporting the identification of gaps, implementation of the standards and undertake need based monitoring and report on the same.
- Meet regularly with the other staff of the College of Nursing and affiliated clinical site, including administrative and management staff, for placing skill labs, computer labs, library etc. and implementation of technical protocols in a time bound manner.
- Facilitate all associated activities and logistics related to the trainings at national/state nodal centers.
- Work in coordination with the state nursing cells and directorates in the specified regions to facilitate nomination of GNM/ANM faculty for the trainings.
- Perform or assume other duties as assigned by the Principal of the Nodal Center such as facilitation of a few sessions in the College of Nursing, to ensure the smooth functioning of the Nodal center as a whole.

### **Experience**

#### **Qualifications/Knowledge:**

#### **Essential:**

- BSc Degree in nursing-midwifery.

- Technical competency in Nursing / Midwifery Education, focusing on Skilled Birth Attendance, Newborn, Child Health and Family Planning

## Models, charts and learning material for skills lab of nodal centers

**All Charts must have rigid lamination on 12mm Board with Aluminum frame**

### Models:

1. Embryology set model - Model consists of 10 parts and shows the relationship between fetus and uterus during gestation period. Various models representing different gestation months included in the model are as below.

Part No.	Gestation month	Appearance/height of fetus
1st	Normal uterus	inner genitals
2nd	First	Placenta is shown
3rd	Second	Embryo looks like human
4th	third	Fetus is about 9 cms
5th	fourth	Fetus is about 16 cms
6th	fifth	Fetus is about 25 cms
7th	sixth	Fetus is about 30cms
8th	seventh	Fetus is about 35cms
9th	eighth	Fetus is about 40cms
10th	ninth	Fetus is about 45cms

2. Female pelvic section with baby model - Full size adult female pelvis made of fibre glass and hand painted with relevant anatomical landmarks and a cloth/rexine fetal doll with head made of fibre glass.

3. Female Reproductive system - Superior quality Model made of advanced PVC. Dissectible into a number of parts and mounted on a stand. Shows internal and external female genital organs.

1	Male Reproductive System Chart -51x66cms size	1
2	Female reproductive system Chart-51x66cms size	1
3	Fetal Development / Embryology Development Chart -70x100cms size	1
4	Stages of Labour (1,2 &3) Chart- 70x100cms size	3
5	Pregnancy & Birth Chart- 70x100cms size	1
6	Mechanism of Labor Chart-70x100cms size	1
7	Embryology Set- Model	1
8	Female Pelvic Section with Baby-Model	1
9	Model Female Reproductive System- Model	1
10	BP/CR Flipbook for counseling	4
11	Flip book -FP counseling	4
12	SBA Posters (16) VENYL, 24X36", GUMMING ON BACK SIDE	1 set
13	IMNCI-Chart (12 posters) The size of the chart must be of size: 24x36", must have PVC pipe on top and bottom and thread to hang the poster	1 set
14	Enlarged partograph (WHO, Simplified Partograph, as in SBA Guideline) on white board – Size 24x36"	1
15	FP Counseling kit (bag) <ul style="list-style-type: none"> <li>▪ Material of the folder kit: Jute or Tetron</li> <li>▪ Folder size: 10''x14''</li> <li>▪ The inner right side of the kit should display the oral pills, IUCD, condom,</li> </ul>	5

	<p>ECP and printed messages on Permanent contraceptive methods under laminated transparent plastic sheet. The inner left side of the kit should have a pocket to hold the templates of FP IEC and the space in middle should be adequate enough to accommodate the FP counseling Flop book.</p> <ul style="list-style-type: none"> <li>▪ The outer back side of the kit to have small pocket of 8''x11'' size and should be adequate enough to accommodate the hand held uterine and penile model.</li> <li>▪ The kit folder should have a zip facility to open/close the kit</li> </ul>	
16	Loose contraceptive samples ( Mala -D, ECP, Mala -N, Condoms, Depo - Provera) Free Samples can be obtained from the Govt.	5 Each
17	<ul style="list-style-type: none"> <li>(i) MCP card</li> <li>(ii) Labour room register</li> <li>(iii) Case sheet</li> <li>(iv) Partograph</li> <li>(v) Referral -in / referral out registers / referral slip</li> <li>(vi) Discharge slip</li> <li>(vii) MDR reporting</li> <li>(viii) Line listing Severe Anaemia</li> <li>(ix) Village wise register</li> <li>(x) Due list/VHND plans</li> <li>(xi) MTP format</li> <li>(xii) Eligible Couple register</li> <li>(xiii) IUCD insertion/follow up register and monthly reporting format</li> </ul> <p>(Note: The item listed in S.N 17 should be as per state Government recommendation)</p>	1 Each

<b>Mannequins and Equipments for Skills Lab Nodal Centers</b>	
<b>Brief Description</b>	<b>Requirement</b>
Abdominal Palpation Mannequin for Leopold Manoeuvres during pregnancy	2
Human Fetus Replicas (5 month and 7 month)	2
Dictaphone	1
Child Birth Simulator	4
Cervical dilatation attachment (Closed Os, 4 cm, 6 cm, 8cm and fully dilated)	2
Postpartum Suturing Trainer	2
Model with normal uterus and accessories and also with postpartum uterus attachment	2
Adult IV arm training kit	2
Female catheterization mannequin	2
Adult Intramuscular Injection Training Mannequin	2
NG tube trainer(Pediatric)	2
Essential Newborn care and newborn resuscitation Mannequin	4
Newborn Baby doll w/o clothes. Chinese.	2
Pediatric multi venous training arm kit	2
Mannequin for simulation and Management of PPH	4
Adult CPR mannequin	1
Fetal skull. Made in China.	5
Adult female pelvis made of synthetic material. Chinese	5
Radiant Warmer.	1
Phototherapy Unit	1
Nebulizer	1
Metered dose Inhaler with Spacer	1
Crash Cart (Optional)	1
Colour coded spring balance infant weighing scale	1
Pulse oximeter with probe	1
Hand held uterus model	2
Penile Model	2
Oxygen Concentrator Equipment- Portable and cylindrical (Optional)	1

**ANNEXURE 10:**

**SOP OF THE MENTORING VISIT OF THE FACULTY OF THE NODAL CENTER**

**ANMTC faculty mentoring visit  
Under INC initiative to  
Strengthen the nursing and  
Midwifery Pre-Service Education in India**

**Standard Operating Procedure**

## INTRODUCTION

After completing the 6 week ANM Faculty Training on “Strengthening the pre service nursing and midwifery education in India”, ANM faculty is expected to use the new GOI guidelines when teaching midwifery and deliver quality competency –based clinical training and implement the performance standards in ANM school that results in sufficiently prepared ANMs able to deliver appropriate maternal and new born care in communities and health care facilities throughout India

To achieve the above, mentoring visit after training is mandatory. This document helps and guides the trainer/training coordinator to plan and implement the same for the desired goal.

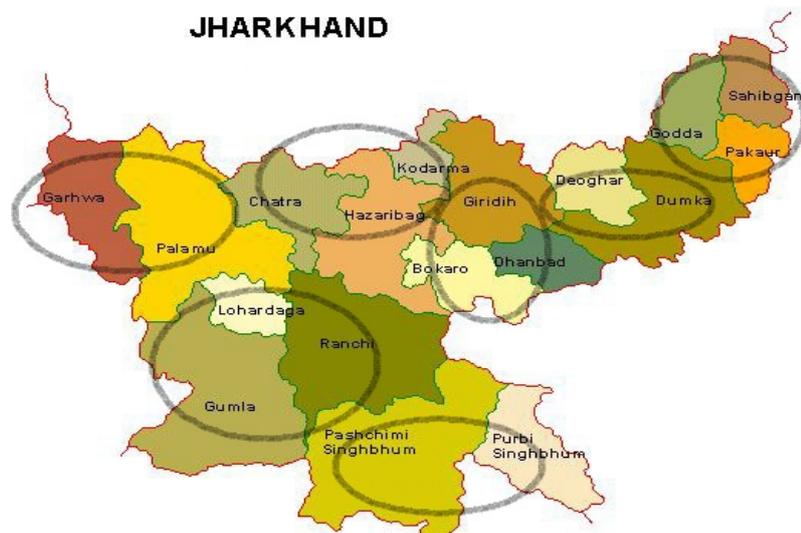

## OBJECTIVES OF THE MENTORING VISITS

1. Facilitate the implementation of performance standards for ANM pre service Education
  - Review the performance standards assessment and score
  - Support in identifying the gaps and planning to meet them
2. Reinforce key clinical skills as per GoI guidelines/standards and simultaneously the effective teaching skills on the following to all ANMTC faculty and representative from clinical site
  - AMTSL
  - Partograph
  - Newborn Resuscitation
  - ENBC
  - Initial management of AN and PN complications
  - Infection Prevention
  - FP counseling
3. Orient the stake holders on purpose & outcome of the visit and way forward.

## ACTIVITIES TO BE PERFORMED

### Visit Plan

1. Identify 2 or 3 ANMTC which are geographically nearby and group them.  
*Example:* The ANMTCs Dumka and Deoghar District at Jharkhand (Between 67 Kms) can be grouped for single visit. Likewise the other ANMTCs in other districts (as shown in a circle in below map) can be grouped.

2. Plan the date of the visit by checking it with the respective ANMTC faculty convenience.
3. Send a letter to ANMTC in charge with copy to Superintendent/Civil Surgeon- District Hospital, Joint secretary-INC, Director & Chief of state Health Services, Respective State regarding the mentoring visit explaining the objective and support required at least a week prior from the Principal coordinator of NNC.
4. Have a copy of the performance standards for ANM pre service Education which was endorsed by INC.
5. Inform the ANMTC In charge/Trained ANMTC faculty to conduct the preliminary assessment before stakeholders meeting. And arrange stake holders meetings during the visit period.

## DURING VISIT

1. Meet the stake holders and brief the objective of the visit.  
*Stakeholders:* Civil Surgeon, District Hospital, All ANMTC faculty, clinical site representatives and store In-charge.
2. Use the supportive supervision check list to assess the facility key requirements for quality pre service nursing and midwifery education.
3. Review and discuss the existing assessment findings in the performance standards for ANM pre service education with all ANMTC faculties and clinical site representative.
4. Facilitate the achievement of the standards by identifying the gaps and planning to meet them.
5. Finalize the action plan focused on interventions that will help to fill the gaps by utilizing existing resources and identifying potential resource and support (encourage starting with small changes, “Low hanging fruits”).
6. Observe the teaching skills (Facilitation, clinical demonstration and coaching- skill lab or clinical site as feasible) of ANMTC faculty using the Check list as guide and **provide constructive feedback for further improvement only with respective faculty in private** to maintain esteem.
7. Demonstrate the key clinical skills per GoI guidelines/standards to all ANMTC faculty and clinical staff.
  - AMTSL
  - Partograph
  - Newborn Resuscitation
  - ENBC
  - Initial management of AN and PN complications
  - Infection Prevention
  - RMNCH counseling
8. Fill the Feedback form for improvement and share it with ANMTC in charge
9. Make a copy of findings in the performance standard, action plan and Feedback Form.
10. Debrief all stakeholder

**Objective:** Provide feedback on SBM-R approach to strengthen the pre service nursing and midwifery education and to gain their cooperation and commitment in the further implementation of the standard.

**Facilitator:** Training coordinator, NNC.

**Participants:** Civil Surgeon, District Hospital, Representatives from ANMTC and its clinical site.

***Meeting Points:***

- Congratulate them for initiating the standard based approach to strengthen the pre service nursing and midwifery education/ achievements
- Discuss the Key action plan for quality improvement based on the findings of the performance standards
- Next SBM –R assessment

***Documentation:*** One ANMTC faculty to register key points of discussion in ANMTC meeting minutes register.

**POST VISIT:**

1. Regular follow up once in a month to facilitate the achievement of the standards by identifying the gaps and planning to meet them via e mail or Telephone.
2. Submit the trip summary (highlighting the key observations, feedback for improvements, action plan to meet the unachieved standards and next steps) to INC copy to Principal Coordinator, NNC and Supervisor, MCHIP.

**LOGISTICS REQUIRED:**

1. Prior information to the ANMTC In-Charge (Superintendent/Civil Surgeon, District Hospital)
2. Arrangement of travel on mentoring visit
3. Arrangement of local transport by coordinating it with the respective ANMTC trained faculty

## SAMPLE LETTER FROM NNC TO DISTRICTS

From

Mrs. Anushila Sengupta,  
Principal,  
College of Nursing,  
NRS Medical College and Hospital,  
Kolkata.

To

Principal,  
ANMTC,  
Kathihar District,  
Bihar.

**Sub: Mentoring visit to trained ANMTC faculty from May 28-29, 2012**

Dear Sir/Madam,

As you are aware, Mr. Rajiv Soni, Nursing Tutor, ANMTC, Kathihar, Bihar Jharkhand was trained for 6 weeks training "Strengthening the pre-service nursing and midwifery education in India" at National Nodal Centre, CON, NRS MCH, Kolkata under the project on "Strengthening the pre-service nursing and midwifery education in India" is an initiative of the Indian Nursing Council which is carried forward with the technical support of MCHIP. The project aims to strengthen the foundation of the ANM education in India, resulting in higher functioning educational institutes, better prepared service providers and ANMs who are competent, confident and ready to work upon graduation.

Thus we would like to provide mentorship to the trained faculty Mr. Rajiv Soni to implement the effective teaching skills and improve the quality of pre service education by applying the performance standards for ANM pre service education. The Training Coordinators of NNC, Ms.Labanya Nandy and Ms.Ruma Das are assigned for the above purpose.

This is to inform you that the mentorship visit is planned from May 28-29, 2012 at ANMTC, Kathihar. As a prerequisite to this visit I request the ANMTC to complete the assessment and develop action plan with the guidance from Mr.Rajiv Soni as he has been taught in the training using performance standards. Also I request your support to ANMTC under you for implementing the standards and to achieve the gaps in coming future. Your kind cooperation will be highly solicited.

Thanking You

Yours Faithfully,

Mrs. Anushila Sengupta

Copy to:

Civil Surgeon, District Hospital, Kathihar  
Superintendent, District Hospital, Kathihar  
Ms.Rajiv Soni, Nursing Tutor, ANMTC, Kathihar

## CHECK LIST FOR EFFECTIVE TEACHING SKILLS

Place an “S” in case box if task/activity is performed **satisfactorily**, an “✖” if it is **not** performed **satisfactorily**, or “N/O” if not observed.

**Satisfactory:** Performs the step or task according to the standard procedure or guidelines

**Unsatisfactory:** Unable to perform the step or task according to the standard procedure or guidelines

**Not Observed:** Step, task or skill not performed during evaluation

**Skilled delivery of a learning activity:** If you, as a mentor, believe that the person whom you assessed has achieved competency, place your **initials** (e.g., “PJ”) in the corresponding column.

EFFECTIVE FACILITATION SKILLS					
STEP/TASK	OBSERVATIONS				
1. Presents an effective introduction.					
2. States the objective(s) as part of the introduction.					
3. Asks questions of the entire group.					
4. Targets questions to individuals.					
5. Uses learner names.					
6. Provides positive feedback.					
7. Responds to learner questions.					
8. Follows trainer’s notes and/or a personalized reference manual.					
9. Maintains eye contact.					
10. Projects voice so that all learners can hear.					
11. Moves about the room.					
12. Uses audiovisuals effectively.					
13. Presents an effective summary.					
<b>Skilled delivery of facilitating a learning activity or presentation</b>					
CLINICAL DEMONSTRATION SKILLS					
STEP/TASK	OBSERVATIONS				
1. States the objective(s) as part of the introduction.					
2. Presents an effective introduction.					
3. Arranges demonstration area so that learners are able to see each step in the procedure clearly.					
4. Communicates with the model or client during demonstration of the skill/activity.					

5. Asks questions and encourages learners to ask questions.					
6. Demonstrates or simulates appropriate infection prevention practices.					
7. When using model, positions model as an actual client.					
8. Maintains eye contact with learners as much as possible.					
9. Projects voice so that all learners can hear.					
10. Provides learners opportunities to practice the skill/activity under direct supervision.					
<b>Skilled delivery of a clinical demonstration</b>					
<b>CLINICAL COACHING SKILLS</b>					
<b>STEP/TASK</b>			<b>OBSERVATIONS</b>		
<b>BEFORE PRACTICE SESSION</b>					
1. Greets learner and review previous performance when applicable.					
2. Works with the learner to set specific goals for the practice session.					
<b>DURING PRACTICE SESSION</b>					
3. Observes the learner, providing positive reinforcement or constructive feedback (when necessary for client comfort or safety) as s/he practices the procedure.					
4. Refers to the checklist or performance standards during observation.					
5. Records notes about learner performance during the observation.					
6. Is sensitive to the client when providing feedback to the learner during a clinical session with clients.					
<b>AFTER PRACTICE FEEDBACK SESSION</b>					
7. Reviews notes taken during the practice session.					
8. Greets the learner and asks to share perception of the practice session.					
9. Asks the learner to identify those steps performed well.					
10. Asks the learner to identify those steps where performance could be improved.					
11. Provides positive reinforcement and corrective feedback.					
12. Works with the learner to establish goals for the next practice session.					
<b>SKILLED DELIVERY OF COACHING</b>					

## CHECK LIST FOR SUPPORTIVE SUPERVISION

ANM/GNM School -

District: \_\_\_\_\_ State: \_\_\_\_\_

Supervisor/Assessor/Mentor: \_\_\_\_\_ Date of the visit: \_\_\_\_\_

SI #	Supervisory Area	Findings	Remarks
1.	No. of Faculty	M.Sc Nursing _____ B.Sc Nursing _____ GNM with DNEA, or DPHN _____ Total _____	
2.	Name of the faculty members completed 6 weeks ANMTC faculty training by INC	1. _____ 2. _____ 3. _____ 4. _____ 5. _____	
3.	Class Room (circle as appropriate)		
a.	Observe if the classrooms have: ▪ Adequate light, either natural or electrical	Yes                  No	
b.	▪ Adequate ventilation (open windows or fan, air conditioner, fans)	Yes                  No	
c.	▪ Chairs and Desks/ arm chairs in sufficient numbers for the largest class size	Yes                  No	
d.	▪ Adequate and flexible space for group learning activities	Yes                  No	
e.	▪ Blackboard or whiteboard	Yes                  No
